Product short description:

Telino Copri Calotta ONU per Elmetto Militare FAST is an ONU-blue helmet cover for military, police and peacekeeping personnel who need durable protection, clear identification and a professional appearance during multinational operations.

- **Material:** Constructed from quality, long-lasting fabric to withstand regular field use.
- **Fit:** Designed for FAST-style helmets (Elmetto Militare FAST); easy to slip on and remove while remaining secure.
- **Visibility:** ONU blue ensures immediate recognition and a neat, professional look.
- **Use:** Ideal for international missions, peacekeeping duties and training where clear identification is required.

Product description:

Product overview

The **Telino Copri Calotta ONU per Elmetto FAST** is a UN-blue helmet cover designed for military, police and peacekeeping personnel who use FAST-style helmets. It protects the helmet

shell, adds identification, and supports modular accessories so operators can stay mission-ready.

Definition: a rip-stop fabric cover sized and shaped to fit FAST helmets, with Velcro panels and openings for night-vision mounts. Built for tactical, military surplus and duty use where visibility and equipment integration matter.

Main features

Key features designed for reliable field use and easy customization.

- **Rip-stop fabric** for abrasion and tear resistance in demanding conditions.
- **UN blue** color for immediate identification in peacekeeping operations.
- **Eight Velcro areas** placed laterally, on top and at the rear for patches, IR strips and insignia.
- **Front opening** to accommodate NVG shrouds or helmet rails.
- **Integrated side loops** for routing cables or securing accessories like microphones and antennas.
- **Internal hooks** ensure a secure, low-movement fit on FAST helmet shells.
- Lightweight construction that preserves mobility and comfort during long duties.

How to use / When it’s useful

Fit the cover over the FAST helmet and anchor it using the internal hooks and Velcro panels; attach ID patches or IR strips where needed. It is especially useful for UN peacekeeping, patrols, and low-light operations where NVG compatibility and clear identification are required.

Quick answer: yes — it installs quickly and stays secure during high-intensity activity. In most cases, users add identification patches on the side Velcro and route comms cables through the side loops for a clean, modular setup.

Care and notes

Simple care keeps the cover functional and visible. Follow these handling guidelines to maintain performance.

- Wash by hand or machine on a low-temperature cycle; avoid bleach and fabric softeners.
- Remove detachable accessories and patches before washing.
- Inspect Velcro panels and internal hooks regularly for wear and proper fastening.
- Do not use a damaged cover; replace if seams or rip-stop weave are compromised.

FAQ

Q: Is the cover compatible with all FAST helmet models?

A: The cover is designed to fit a wide range of FAST helmets, including models in use by the Forze Armate Italiane. Compatibility depends on helmet shape and accessory layout.

Q: How do I install the Telino Copri Calotta ONU?

A: Slide the cover over the shell, engage the internal hooks and align the Velcro panels. Adjust placement so openings match any NVG shrouds or rails.

Q: Can I wash the helmet cover?

A: Yes. Wash by hand or machine on a gentle, low-temperature cycle. Avoid bleach and softeners and remove attached accessories first.

Q: Is the cover suitable for extreme climates?

A: The rip-stop fabric is made to resist heat, humidity and dusty environments, but inspect the cover after harsh exposure and replace if damaged.

Q: Can I attach identification patches or IR strips?

A: Yes. The top, side and rear Velcro areas are provided specifically for ID patches, unit insignia and IR strips.

Q: Does the cover allow night-vision equipment use?

A: The front opening is designed to fit helmet NVG shrouds or compatible rails, maintaining NVG mounting and alignment when installed correctly.

Tip: Choose the cover variant that matches your FAST helmet model and check Velcro placement before purchase. Browse related tactical and military surplus items to complete your setup while ensuring compatibility with your duty gear.
