Product short description:

The Magnum Special Forces knife is a tactical-style blade suitable for military surplus collectors, outdoor enthusiasts, and professionals who need a dependable cutting tool in field and utility situations. Compact and versatile, it is intended for practical use rather than decorative display.

- **Brand:** Magnum Special Forces
- **Type:** Tactical knife for field, survival and utility use
- **Design:** Practical profile for secure handling during common tasks
- **Notes:** Sold as pictured. Check local laws on knife ownership and carrying before purchase

Product description:

Product overview

The Coltello Magnum Special Forces is a compact folding knife designed for outdoor enthusiasts, security professionals, and anyone who needs a reliable everyday or emergency tool. It combines a sturdy 440A steel blade with practical emergency features and a durable metal handle.

Definition: a tactical folding knife with a non-reflective blade coating and built-in emergency tools for versatile use in outdoor, duty, and police contexts.

Main features

Well-balanced for carry and quick access, this knife offers practical features for tactical, military surplus, and duty use.

- **440A steel blade** with black non-reflective coating for reduced glare and improved surface protection.
- **Quick extraction stud** on the blade's upper end for fast deployment.
- **Anodized gold metal handle** for strength and an understated finish.
- **Built-in emergency tools**: glass breaker and seatbelt/strap cutter on the handle.
- **Pocket clip** for secure, convenient carry.
- **Compact size**: blade length 8.5 cm; overall length 19.5 cm.

How to use / When it's useful

Quick answer: use the stud to open the blade quickly, carry it clipped in a pocket for fast access, and use the glass breaker or cutter in emergency situations. This knife is suitable for camping, everyday carry, security duty, and vehicle emergencies.

In most cases, clip the knife in a pocket or gear pouch and check the handle tools before use. Its compact dimensions make it easy to carry while still offering useful cutting and rescue functions for tactical or police-related tasks.

Care and notes

To keep the knife performing well, follow simple maintenance and safety steps.

- Clean and dry the blade after use; apply light oil to prevent corrosion.
- Inspect the pivot and any locking or moving parts regularly for wear.
- Store the knife securely and keep it out of reach of children.
- Check local laws and regulations before carrying the knife in public.

FAQ

Q: What material is the blade made of?

A: The blade is made from 440A steel and has a black non-reflective coating that helps reduce glare and offers basic surface protection.

Q: Is the knife easy to carry?

A: Yes, it includes a rear pocket clip for convenient carry. The compact overall length (19.5 cm) makes it suitable for pocket or kit carry.

Q: Does the handle include emergency tools?

A: Yes, the anodized metal handle includes a glass breaker and a seatbelt/strap cutter for emergency situations.

Q: How long is the blade?

A: The blade length is 8.5 cm, offering a balance between cutting utility and compact carry.

Q: Can I open the blade quickly?

A: Yes, a stud on the blade’s upper end allows quick extraction and faster access when needed.

Q: Are there any legal considerations for carrying this knife?

A: Laws vary by location. Check local regulations before carrying a folding knife in public to ensure compliance.

Tip: Choose the right variant or size for your needs and browse related tactical and military surplus items to complete your kit. Consider how you plan to carry and use the knife before purchase.
