Product short description:

The Cuffia Pile Pesante 3 Punte Verde is a heavy fleece hat designed to keep your head and ears warm in cold weather. Ideal for outdoor enthusiasts or anyone seeking practical, low-profile winter protection with a distinctive look.

- **Material:** Soft, heavy fleece for reliable insulation.
- **Fit:** Snug, wraparound fit that covers head and ears.
- **Design:** Distinctive three-point shape for a standout yet practical look.
- **Color:** Deep green that pairs easily with winter clothing.
- **Use:** Suitable for outdoor walks, commuting, and winter sports.

Product description:

Product overview

The Heavy Fleece 3-Point Cap in green is a cold-weather headcover designed for military personnel, police, tactical users, outdoor workers and winter commuters. It provides targeted protection for the head, ears and neck in cold or damp conditions.

Definition: A three-point heavy fleece cap made from 400 g/m² macro fleece that combines thermal insulation, moisture resistance and an anti-pilling finish. Lightweight at 50 g, it is suitable for tactical, military surplus, duty and outdoor use.

Main features

Key features at a glance:

- **Macro fleece 400 g/m²** — dense fleece for thermal insulation.
- **Three-point ergonomic design** — covers head, ears and neck without pressure points.
- **One size fits most** — natural stretch of the fabric adapts to different head shapes.
- **Moisture-resistant treatment** — repels light rain and snow; not fully waterproof.
- **Anti-pilling finish** — reduces surface wear for a neater look over time.
- **Lightweight** — approx. 50 g for easy carrying and layering.

How to use / When it’s useful

Wear the cap so the three points cover the crown, ears and upper neck for full thermal protection. It works well alone or layered under an outer shell during operations, patrols, hikes or winter commutes.

Quick answer: Use it whenever you need compact, reliable warmth for head, ears and neck. In most cases, it is best for cold, damp conditions and light precipitation where breathability and low weight matter.

Care and notes

Basic care keeps the cap performing: gentle washing, no fabric softener, and air drying preserve the moisture-resistant and anti-pilling treatments.

- Machine wash cold or hand wash with mild detergent.
- Avoid fabric softeners and bleach to maintain treatments.
- Air dry away from direct heat (no tumble dryer or radiators).
- Store folded in a dry place out of direct sunlight to preserve shape.

FAQ

Q: Is this cap suitable for outdoor sports?

A: Yes. It is suitable for hiking, hunting, fishing and many winter sports where warmth and light moisture resistance are needed.

Q: How should I wash the cap?

A: Wash by hand or in a washing machine on a low-temperature cycle using a mild detergent. Do not use fabric softener and air dry only.

Q: Are there other sizes available?

A: The cap is offered in one size designed to fit most head shapes thanks to the stretch of the fleece fabric.

Q: Is the cap waterproof?

A: No. The fabric is treated to resist moisture and repel light rain or snow, but it is not fully waterproof for prolonged exposure.

Q: How much does the cap weigh?

A: The cap weighs approximately 50 grams, making it easy to pack and layer without adding bulk.

Q: Is this cap suitable for military or professional use?

A: Yes. The design and materials are intended for use in demanding outdoor conditions, making it appropriate for military, police and other professional outdoor roles.

Tip: This cap is one-size-fits-most — consider related headwear, balaclavas or helmet liners on our site to complete your kit and ensure the best fit for your needs.
