**Product features:**

**Product short description:**

Extendable multi-use stainless steel tongs for home cooks and outdoor grilling. Durable construction and a user-friendly design make them suitable for everyday kitchen tasks and barbecues.

- **Material:** Stainless steel construction for durability and easy cleaning.
- **Design:** Extendable length for better reach when flipping, serving or grilling.
- **Grip:** Ergonomic handle ensures a secure, comfortable hold.
- **Locking:** Simple locking mechanism keeps tongs closed for compact storage.
- **Use:** Ideal for barbecue, grilling and daily food preparation.

**Product description:**

### Product overview

The Stainless Steel Telescoping Multi-Pliers are a compact, foldable multi-tool designed for

outdoor enthusiasts, campers, hikers, survivalists and for use in tactical, military surplus or police duty kits. It combines pliers and multiple tools in one portable unit for on-the-go repairs and emergency tasks.

Definition: a retractable, stainless-steel multi-tool with pliers and built-in accessories for general-purpose field use.

**Main features**

Built for everyday outdoor use and easy carry, this multi-tool focuses on durability, portability and safety.

- Material: stainless steel 420 for corrosion resistance and long life.
- Compact & foldable: 12 x 4 x 2 cm when closed, weight 240 g for pocket or pack carry.
- Retractable pliers with a handle safety lock for stable, secure use.
- Multiple built-in tools: main knife, bottle opener, can opener, awl/point, wire cutters (front/back), Phillips and flat screwdrivers (including thin slotted), metric ruler, round wire straightener and needle-nose pliers.
- Corrosion-resistant finish suitable for camping, hiking and general duty use.

**How to use / When it’s useful**

Quick answer: open the handle, press the safety lock to engage the pliers, then use the required tool; fold and release the lock to store. The safety lock holds the pliers and tools firmly during use.

In most cases, this tool is useful for campsite repairs, light field maintenance, opening cans or bottles, small electrical/tent fixes and basic survival tasks. It is small enough for everyday carry in a pack or duty bag and suitable as a general-purpose tactical or military surplus accessory.

**Care and notes**

Basic care will keep the tool functional and safe over time; attention to the blade and locking parts is recommended.

- Clean and dry after use, especially after exposure to moisture or dirt.
- Keep blades sharp and handles free of grit; lubricate pivot points lightly if they stiffen.
- Fold and lock tools when not in use; keep out of reach of children due to sharp edges.
- Avoid prolonged exposure to saltwater to prevent accelerated corrosion.

## FAQ

**Q:** What are the closed dimensions?

**A:** The folded size is 12 x 4 x 2 cm. It is designed for compact carry in a pocket or small pouch.

**Q:** How much does the multi-tool weigh?

**A:** The tool weighs 240 g. It balances portability with a sturdy, metal construction for durable field use.

**Q:** What material is used?

**A:** The pliers and tools are made from stainless steel 420, chosen for rust and corrosion resistance in outdoor conditions.

**Q:** Which tools are included?

**A:** Included are a main knife, bottle opener, can opener, awl/point, front/back wire cutters, Phillips and flat screwdrivers (including a thin slotted tip), a cm ruler, round wire straightener and needle-nose pliers.

**Q:** How does the safety lock work?

**A:** When a tool or the pliers is opened, press the safety lock on the handle to secure it. To close, move the lock in the direction of the arrow and fold the tool back into the handle.

**Q:** Is this suitable for tactical or duty use?

**A:** It serves well as a general-purpose tool for tactical, military surplus or police duty kits, but check any specific operational or departmental equipment standards before use in professional environments.

**Tip:** Choose the right variant or size for your kit and consider related multi-tools for specific tasks; browse compatible carry options and replacement parts to match your use without rushing your decision.
