Product short description:

Black helmet bag with shoulder strap for motorcyclists and two-wheel enthusiasts who need a practical, stylish solution to carry and protect their helmet on the move. Designed for riders who value convenience and a neat gear solution for commuting, weekend trips, or storage.

- **Material:** Durable, hard-wearing fabric built for regular use.
- **Protection:** Constructed to protect the helmet during transport and daily handling.
- **Carry:** Adjustable shoulder strap for comfortable, hands-free transport.
- **Style:** Black finish pairs easily with any gear and offers a clean, modern look.
- **Use:** Ideal for commuting, weekend rides and on-the-go storage.

Product description:

Product overview

The Black Helmet Carry Bag with Shoulder Strap is a durable nylon carry case designed for pilots and aircrew, from glider pilots to powered aircraft pilots. Definition: a helmet carry bag is a protective case for flight helmets and related mission gear.

Built for practical use in flight operations and for tactical, military surplus or duty purposes, the bag features a top zipper, two hand handles and an adjustable shoulder strap. Dimensions: 47 cm width x 50 cm height — large enough to also hold a laptop and flight documents.

Main features

Practical design and construction focused on protection, organization, and easy transport.

- **Durable nylon construction** for long-term everyday use.
- **Large external pockets**: two front pockets with Velcro and snap-button closures for quick access.
- **Internal storage**: two side internal pockets without closures for small items and cables.
- **Secure top zipper** to keep helmet and contents protected during transport.
- **Multiple carry options**: two hand handles plus an adjustable shoulder strap for comfort.
- **Operational detail**: used by European NATO pilots; front upper-left Velcro patch (female side only) measures 5 x 7 cm.

How to use / When it’s useful

Quick answer: Use it to carry a flight helmet, mission papers, maps, and personal gear from briefing to the flightline. The bag also works as a practical laptop or kit bag for duty and tactical operations.

In most cases, pilots pack the helmet and essential items and carry the bag as a briefcase or sling it over the shoulder for hands-free movement. It is suitable for civilian and military use where a rugged, organized carry option is needed.

Care and notes

Simple care keeps the bag functional and looking good for years.

- Spot clean with a damp cloth; avoid aggressive machine washing to protect fabric and seams.
- The nylon gives good moisture resistance but the bag is not fully waterproof; avoid prolonged exposure to heavy rain.
- Front Velcro is the female side only (5 x 7 cm) for attaching patches or ID tabs.
- Available in limited quantity; check stock before planning purchases.

FAQ

Q: What are the bag dimensions?

A: The bag measures 47 cm wide by 50 cm high. These dimensions make it suitable for a flight helmet and also for carrying a laptop and documents.

Q: Is the bag waterproof?

A: The bag is made from durable nylon, offering good protection against moisture, but it is not fully waterproof. For heavy rain, use extra cover or store electronics in waterproof sleeves.

Q: Can this bag be used for purposes other than carrying a helmet?

A: Yes. It is versatile for use as a laptop bag, kit bag, or duty/tactical carry bag for pilots, police, or military surplus users who need rugged, organized storage.

Q: Is the shoulder strap adjustable?

A: Yes. The shoulder strap is adjustable to suit different carrying preferences and to provide comfortable transport from briefing rooms to the flightline.

Q: What pockets does the bag include?

A: The bag has two large front pockets with Velcro and snap-button closures, plus two internal side pockets without closures for small accessories and documents.

Q: Does the bag include a Velcro area for patches?

A: Yes. There is a Velcro panel (female side only) on the front upper-left of the bag that measures 5 x 7 cm for patching or ID labels.

Tip: Choose the right size and carrying option for your needs — check the 47 x 50 cm dimensions before purchase — and consider browsing related tactical and duty bags to complete your gear set.
