Product short description:

The Borsa Porta Casco Vegetata con Tracolla is a sturdy helmet bag with an adjustable shoulder strap, designed for riders and outdoor enthusiasts who need practical, protective storage with a military-style look. It combines functional design and a vegetation-pattern finish to offer a reliable, easy-to-carry solution for transporting and storing your helmet.

- **Material:** Durable construction made for regular use.
- **Protection:** Interior protects the helmet from bumps and scratches during transport.
- **Strap:** Adjustable shoulder strap for comfortable, hands-free carrying and quick access.
- **Style & Use:** Vegetata camouflage pattern adds character; ideal for motorcyclists and outdoor sports enthusiasts.

Product description:

Product overview

The Borsa Porta Casco Vegetata con Tracolla is a padded Cordura helmet bag designed for pilots and professionals who need a durable carrying solution for flight helmets, documents and everyday gear. It is suitable for NATO and civilian pilots, as well as tactical, military surplus, duty and police users looking for a sturdy transport bag.

Definition: a padded Cordura helmet bag with reinforced handles and an adjustable shoulder strap for safe transport of a flight helmet and related items. Available in olive green with limited stock.

Main features

Key features focused on protection, transport options and organization.

- **Body dimensions:** 47 cm wide x 50 cm high (main compartment).
- **Shoulder strap:** Adjustable strap approximately 5 cm wide and up to 120 cm long for crossbody or shoulder carry.
- **Durable material:** Padded Cordura for abrasion resistance and basic water resistance in light rain.
- **Handles and closure:** Two reinforced stitched handles and a top zipper closure for secure carry.
- **Storage pockets:** Two roomy front side pockets with Velcro and snap buttons, plus two internal side pockets without closure for small items.
- **External hardware:** Black metal carabiner on the exterior for quick attachment to gear or racks.
- **Identification panels:** Two female-only Velcro panels (12 x 3 cm top-left, 5 x 7 cm bottom-right) for patches or labels.

How to use / When it’s useful

Quick answer: use it to carry a flight helmet, maps, flight documents and a laptop between briefing room and flightline, or as a rugged day bag for tactical or duty use. The padded interior protects electronics and helmets during transport.

In most cases, pilots carry the bag by the handles for short transfers and use the shoulder strap for longer moves. It also works well for drone pilots, glider pilots, and anyone needing a compact, protective bag for military surplus or police equipment.

Care and notes

Basic care keeps the Cordura and padding in good condition; follow these practical guidelines.

- Wipe clean with a damp cloth; avoid machine washing to protect padding and hardware.
- Cordura offers water resistance but is not fully waterproof—avoid prolonged exposure to heavy rain.

- Check and tighten strap fittings and snaps before each mission or trip.
- Store dry and ventilated to prevent mildew if the bag becomes wet.

FAQ

Q: Is the bag waterproof?

A: The padded Cordura is water-resistant and will protect contents in light rain, but the bag is not fully waterproof for heavy or prolonged exposure.

Q: Is the shoulder strap adjustable?

A: Yes. The shoulder strap is adjustable and designed for crossbody or shoulder carry to suit different heights and carry preferences.

Q: Can I carry a laptop in this bag?

A: Yes. The padded interior can accommodate and protect a laptop of typical sizes, though fit depends on your laptop dimensions.

Q: Are the side pockets secure?

A: The two front side pockets close with Velcro and snap buttons for added security; internal side pockets are open for quick access to small items.

Q: Is this bag only for pilots?

A: No. While commonly used by pilots, the bag is versatile and suitable for tactical, military surplus, duty and police users or anyone needing a rugged helmet/laptop carrier.

Q: What are the exact dimensions?

A: The main compartment measures 47 cm wide x 50 cm high. The shoulder strap is approximately 5 cm wide and extends up to about 120 cm.

Tip: Choose the bag variant and size that best fits your helmet or laptop, and browse related tactical and military surplus gear to complete your setup. Consider ordering soon if you need it quickly, as stock is limited.
