Product short description:

The JS-Tactical 4x32 Compact optic is a compact 4x magnification sight designed for shooting enthusiasts. It delivers clear, detailed target viewing in a lightweight, rugged package suitable for range and field use.

- **Magnification:** 4x for precise target acquisition.
- **Construction:** Robust yet lightweight design for durability and easy handling.
- **Mounting:** Ergonomic shape enables quick, straightforward installation and fits a variety of firearms.
- **Use:** Ideal for shooters seeking reliable, consistent aiming in training and field situations.

Product description:

Product overview

The Ottica JS-Tactical 4x32 Compact is a compact riflescope designed for shooters who need a lightweight, dependable optic for medium-range work. It suits recreational shooters, hunters, and duty or tactical users who want a simple fixed-power scope.

Definition: This is a 4x fixed-magnification optic with a 32 mm objective lens, built for straightforward aiming and easy mounting. The optic is compatible with tactical, military surplus,

and police-style setups.

Main features

Practical, no-frills design focused on clarity, ease of use, and quick installation.

- **Magnification:** 4x fixed power for medium-range target acquisition.
- **Objective lens:** 32 mm diameter for clear, sharp images.
- **Reticle:** Crosshair reticle for fast, precise aiming (non-illuminated).
- **Size and weight:** Length 24 cm, weight 300 g — compact and lightweight.
- **Included:** Protective lens caps and mounting rings are supplied for immediate fitment.
- **Finish:** Matte black for low-reflective, tactical appearance.

How to use / When it’s useful

Quick answer: Mount the scope using the included rings, zero it to your weapon at a chosen distance, and use the 4x magnification for medium-range shooting. The scope’s simple controls make sighting-in straightforward for beginners and fast for experienced shooters.

In most cases, this optic is best for ranges where 4x magnification gives a clear target image—typical hunting, range practice, and many duty/tactical applications. It is not an illuminated scope, so low-light performance will depend on ambient conditions and your firearm setup.

Care and notes

Basic care keeps the optic functional and prolongs life.

- Keep lens caps on when not in use to protect from dust and scratches.
- Clean lenses with a soft brush and lens cloth; avoid harsh chemicals.
- Check ring torque periodically to maintain zero after heavy use.
- Note: The reticle is not illuminated—expect reduced visibility in very low light.

FAQ

Q: What is the weight of the Ottica JS-Tactical 4x32 Compact?

A: The scope weighs 300 grams, making it easy to handle and suitable for lightweight builds and tactical setups.

Q: What is the objective lens diameter?

A: The objective lens diameter is 32 mm, designed to provide a clear view at medium distances.

Q: Is the scope easy to mount?

A: Yes. The scope ships with mounting rings included, so it can be fitted without purchasing extra mounting parts in most cases.

Q: What magnification does it offer and what is it best for?

A: It offers 4x fixed magnification, which is ideal for medium-range shooting such as hunting and target practice.

Q: Is the reticle illuminated?

A: No. The reticle is a standard crosshair and is not illuminated, so low-light aiming will be limited compared with illuminated scopes.

Q: Is this optic suitable for beginners or experienced shooters?

A: The Ottica JS-Tactical 4x32 Compact is suitable for both beginners and experienced users thanks to its simple adjustment system and straightforward reticle.

Tip: Choose the right mounting height and check compatibility with your rail before purchase; consider browsing related tactical and duty optics to compare features and find the best fit for your needs.
