Product short description:

The Vegetato Waterproof Backpack Cover (100 liters) protects large backpacks from rain, mud and dust. Ideal for hikers, campers and tactical users who need dependable weather protection on outdoor trips.

- **Material:** Quality waterproof fabric built for durability and repeated outdoor use.
- **Fit:** Designed for backpacks up to 100 L; easy to put on and remove for quick access.
- **Protection:** Shields gear from rain, mud and dust to help keep contents dry and secure.
- **Pattern:** Vegetato camouflage blends into natural environments for hiking and field use.

Product description:

Product overview

The Copri Zaino Vegetato Impermeabile 100 Litri is a waterproof backpack cover designed for military, tactical, and outdoor users who need reliable protection for large packs. It fits backpacks

up to 100 liters and is suitable for soldiers, hikers, police, and other duty or tactical users.

Definition: a water-resistant protective cover for backpacks up to 100 L, made from 100% polyester ripstop with heat-sealed seams. Lightweight and packable, it protects gear from rain, snow, dust and dirt while on the move.

Main features

Key features that make this cover practical for military surplus, tactical and duty use:

- **Material:** 100% polyester ripstop for tear and abrasion resistance.
- **Size:** 83 x 47 x 32 cm — fits backpacks up to 100 liters.
- **Water protection:** water-resistant fabric with heat-sealed seams to reduce water entry.
- **Secure fit:** adjustable elastic drawcords at top and bottom plus a transverse elastic strap.
- **Compact:** folds into an internal pocket for easy storage and transport.
- **Lightweight:** designed not to add significant bulk to your load.

How to use / When it’s useful

Quick answer: slip the cover over your pack, tighten the top and bottom drawcords and fasten the cross elastic to keep it in place. It is ideal for rain, snow, dusty or muddy conditions encountered on patrols, hikes or field duty.

In most cases, the cover provides effective protection during routine outdoor use and tactical operations; for best results check the fit with your loaded pack before deploying. Use it whenever you need to shield equipment from weather and debris while keeping a low-profile, tactical appearance.

Care and notes

Simple care keeps the cover functional and extends its service life. Follow these basic guidelines and warnings implied by its design.

- Verify compatibility with your pack dimensions (83 x 47 x 32 cm) before purchase.
- Clean by wiping with a damp cloth or hand wash gently; air dry completely before storing.
- Fold and store inside its pocket to save space when not in use.
- Not intended for prolonged submersion; avoid sharp edges and open flames.

FAQ

Q: Is this cover suitable for all backpacks?

A: It is a universal cover for large backpacks up to 100 liters. Check your pack’s dimensions (83 x 47 x 32 cm) to confirm fit.

Q: Is the cover fully waterproof?

A: The cover is made from water-resistant polyester ripstop with heat-sealed seams to keep out rain and moisture. It is not guaranteed for prolonged submersion.

Q: How do I secure the cover to my pack?

A: Pull the cover over the pack, tighten the top and bottom elastic drawcords, then fasten the transverse elastic strap for a stable fit while moving.

Q: How much weight does the cover add?

A: The cover is lightweight and designed not to add significant weight to your load. No specific weight is listed, but it is intended for packability and low bulk.

Q: Can I store the cover inside my backpack?

A: Yes. The cover folds into its internal pocket so you can stow it inside your pack until needed.

Q: Is it durable enough for tactical or military use?

A: Constructed from polyester ripstop with heat-sealed seams, it offers good resistance to tears and abrasion for field use. Inspect regularly and avoid contact with sharp objects to maintain durability.

Tip: Choose the correct size for your pack and test the fit loaded before heading out. Browse related tactical and military surplus items to complete your kit—consider lighter or reinforced variants depending on your duty or outdoor needs.
