- **Regulation size:** available only in the standard 37 mm width.
- **Two variants:** flat regulation version and slightly domed “elite” version for a refined look.
- **Mounting options:** rear clip (morsetti) for quick attachment or screw attachment for greater stability.
- **Single ribbon holder compatible:** fits on a single ribbon mount; multi-ribbon metal bases can be customized.
- **Suitable uses:** uniform wear, display cases, and military surplus collections.

How to use / When it’s useful

Quick answer: mount the ribbon on a single ribbon holder using the clip for temporary use or screws for permanent fitting. It is suitable for uniform wear, presentations, and collectors’ displays.

In most cases, choose the flat regulation version for standard uniform rules and the slightly domed elite version if you prefer a more distinguished appearance. If you need multiple ribbons on one metal base, a customizable ribbon holder is recommended.

Care and notes

Simple care keeps the ribbon looking correct and preserves mounting hardware.

- Avoid prolonged exposure to moisture and direct sunlight to prevent fading.
- Use clip attachment for easy removal; use screws for a more secure, long-term fit.
- Confirm the 37 mm size before purchase to match regulation holders.
- If ordering a multi-ribbon base, check compatibility with the ribbon thickness and attachment type.
