Product short description:

Emergency multi-tool pliers with 19 functions in sandblasted steel — a compact, durable tool for DIYers, campers and everyday emergencies. Designed to balance strength and manageable weight, it delivers reliable performance when needed.

- **Material:** Sandblasted steel construction with a durable, non-reflective finish.
- **Functions:** 19 integrated tools including screwdrivers, bottle opener and wire cutter/stripper for common repairs and tasks.
- **Design:** Ergonomic handles for a comfortable, secure grip and easy control.
- **Portability:** Compact folding closure for safe transport in a pocket or kit.

Product description:

Product overview

The Pinza Multiuso 19 Funzioni Acciaio Sabbiato is a compact multi-tool designed for outdoor

enthusiasts, DIYers, woodworkers and emergency responders. It combines 19 integrated tools in a sandblasted stainless steel body for reliable everyday and field use.

Definition: a 19-function stainless steel multi-tool with a safety lock and a nylon carrying sheath, made for portable utility in tactical, military surplus, police and duty-style applications.

Main features

Durable construction and practical features make this multi-tool a versatile choice for work, camping and repair tasks.

- **19 functions** including pliers, main knife and scissors.
- **Sandblasted stainless steel** finish for reduced glare and solid corrosion resistance.
- Cutting parts (blade, scissors, wire clamp) in **440A stainless steel**; accessories in **420 stainless steel**.
- **Compact and lightweight** design — weighs approximately 256 grams for easy carry.
- **One-handed opening** and a **safety lock** for secure use.
- Includes a black nylon carrying sheath for transport and storage.

How to use / When it’s useful

Use this multi-tool for camping, quick field repairs, woodworking tasks, and everyday DIY jobs—its combination of pliers, blades and scissors covers most common needs. The compact size and sheath make it easy to carry on outdoor trips, in a toolbox, or on a duty belt.

Quick answer: use it when you need a single, portable tool for cutting, gripping, and light repairs. In most cases, the safety lock and one-hand opening let you work faster and safer when you need both hands free.

Care and notes

Basic care keeps the tool reliable and extends service life; store it dry and inspect moving parts regularly.

- Clean and dry after exposure to moisture to prevent staining.
- Lubricate pivot points occasionally for smooth operation.
- Sharpen blades carefully using appropriate sharpening tools.
- Keep out of reach of children and use caution—the blades and tools are sharp.

FAQ

Q: What are the tool's dimensions and weight?

A: The multi-tool is compact for pocket or pack carry and weighs about 256 grams. Exact

folded/open dimensions are compact and optimized for portability.

Q: What materials are used in the construction?

A: The body has a sandblasted stainless finish. Cutting parts (knife, scissors, wire clamp) use 440A stainless steel; other accessories are 420 stainless steel.

Q: How many functions does it include?

A: It offers 19 integrated functions, covering pliers, main knife, scissors and several accessory tools for common tasks.

Q: Is a carrying case included?

A: Yes. The multi-tool comes with a black nylon sheath for safe transport and storage.

Q: Is it safe to use for professional or tactical tasks?

A: The tool is suitable for outdoor, tactical-style and duty carry as a general-purpose multi-tool. For formal professional or regulated use, verify job-specific equipment requirements and local rules.

Q: What maintenance does the tool need?

A: Wipe clean and dry after use, lubricate pivots as needed, and sharpen blades when they dull. Regular inspection of the safety lock and moving parts is recommended.

Tip: Choose the variant or size that fits your carry style and browse related tactical, military surplus and duty tools to complete your kit; the nylon sheath and compact weight make this multi-tool an easy addition to most setups.
