Product short description:

Guanti VH Barrier are cut- and puncture-resistant gloves designed for professionals and DIY enthusiasts who need reliable hand protection while maintaining tactile sensitivity.

- **Material:** Advanced materials deliver strong resistance to cuts and punctures while keeping the gloves lightweight.
- **Use:** Suitable for professionals and DIY enthusiasts for work, maintenance and hobby tasks requiring hand protection.
- **Fit:** Ergonomic design ensures a secure, natural fit that allows agile, precise movements.
- **Durability:** Combines long-lasting construction with low weight, preserving touch sensitivity for fine tasks.

Product description:

Product overview

The VH Barrier Cut- and Puncture-Resistant Gloves are protective duty gloves designed for police, security, tactical operators, and anyone needing extra hand protection during searches

and handling sharp objects. Definition: Duty gloves with an elastic back, lined leather, and an Elephant Shark Skin coating on the palm and fingers to provide cut resistance and puncture protection.

These gloves balance protection, comfort and freedom of movement. They feature an adjustable wrist strap, ergonomic construction for long wear, and are suitable for tactical, military surplus, and police use where reliable hand protection is needed.

Main features

Key features designed for practical use, durability and ease of wear.

- **High-quality materials:** Elastic fabric on the back with leather lining for comfort.
- **Palm and fingers coated in Elephant Shark Skin:** Special fabric that provides cut resistance and strong puncture protection against syringes and sharp tools.
- **Ergonomic design:** Patterned for good dexterity and natural hand movement during tasks.
- **Adjustable wrist strap:** Secure fit and reduced slippage during long sessions.
- **Easy maintenance:** Wipe-clean materials for simple care and extended use.
- **Sizes and warranty:** Available S to XXL; covered by a 12-month warranty against manufacturing defects.

How to use / When it’s useful

Use these gloves during searches, evidence handling, patrols, or any task where there is a risk of cuts or punctures from sharp objects. They are built for repeated use and to maintain dexterity while offering protective coverage of the palm and fingers.

Quick answer: They are suitable for police, security and tactical duties, and for general protection when handling syringes or sharp instruments. In most cases, they will reduce the risk of cuts and punctures encountered in routine searches and similar activities; however, they are not guaranteed to stop all needle sticks or high-energy punctures.

Care and notes

Simple care extends glove life; check condition regularly and replace if damaged.

- Clean with a damp cloth and mild detergent; allow to air dry.
- Inspect before use for cuts, tears or worn areas; discard if compromised.
- Not a substitute for certified medical or industrial PPE in high-risk environments.
- Available sizes S–XXL; consult the size guide to choose the correct fit.

FAQ

Q: What sizes are available for VH Barrier gloves?

A: Sizes run from S to XXL. Check the size guide provided by the retailer to find the best fit for your hand measurements.

Q: Are these gloves washable?

A: Yes. Wipe clean with a damp cloth and a mild detergent. Do not machine wash or tumble dry to avoid damaging the protective coating.

Q: Can I use these gloves for activities other than searches?

A: Absolutely. They are versatile for any duty or tactical task where cut and puncture protection is needed, such as handling sharp objects or performing general security work.

Q: How long do VH Barrier gloves last?

A: Longevity depends on frequency of use and care. High-quality materials and proper maintenance will extend service life, but inspect regularly and replace when worn.

Q: Do the gloves protect against syringes and needles?

A: The Elephant Shark Skin coating offers strong resistance to punctures from syringes and sharp instruments encountered in routine tasks, but no glove can guarantee complete protection against all needle sticks.

Q: Is there a warranty?

A: Yes, VH Barrier gloves come with a 12-month warranty covering manufacturing defects. Normal wear and damage from misuse are not covered.

Tip: Choose the correct size for a secure fit and full dexterity. When shopping, compare related tactical and duty gloves to find the best option for your role and tasks.
