Product short description:

Rete Mimetica Vegetata per Capanno is a vegetation-style camouflage net for blinds and hides. Ideal for birdwatching, hunting and wildlife photography.

- **Camouflage:** Foliage-inspired pattern that blends with natural vegetation.
- **Use:** For hunting blinds, bird hides and wildlife photography concealment.
- **Installation:** Lightweight and easy to deploy; drapes or secures to frames.
- **Durability:** Designed for outdoor use, resistant to wear and prolonged exposure.
- **Privacy:** Provides discreet cover to protect your position.

Product description:

Product overview

The Rete Mimetica Vegetata Capanno is a camouflaged vegetation net designed for outdoor hides, hunting blinds, birdwatching hides, and privacy screens. It is suitable for outdoor

enthusiasts, hunters, conservationists, and tactical or military surplus users who need discreet, breathable cover.

Definition: a lightweight, eco-friendly camo net with natural-looking foliage mounted on a mesh, 3 metres high and sold by the linear metre. The net features an olive-green backing, waterproof treatment, and resistance to mold and UV exposure.

Main features

Built for outdoor use, this vegetated camouflage net balances concealment and durability while remaining easy to handle and cut to size.

- **Eco-compatible material** for a reduced environmental impact.
- **Height 3 metres**, sold by the linear metre for flexible lengths.
- **Lightweight yet durable** construction suitable for repeated use.
- **Waterproof and mildew-resistant** thanks to a protective treatment.
- **UV-treated** to limit fading over time.
- **Natural foliage pattern** mounted on a net with a low-gloss coating to reduce shine.
- **Can be cut to fit** without compromising overall integrity.

How to use / When it’s useful

Quick answer: use this camo net to conceal a blind, cover equipment, create a privacy screen, or improve concealment during observation and tactical training. It is also suitable for civilian outdoor use like garden shelters.

In most cases, installation is quick — the net is light and easy to handle and can be shaped or trimmed on-site to fit frames, poles, or natural supports. For hunting, birdwatching, or tactical drills the natural foliage and low reflectivity improve concealment in woodland and mixed vegetation.

Care and notes

Simple maintenance keeps the net effective and extends its service life; basic cleaning and dry storage are usually sufficient.

- Clean with mild soap and water; rinse and let air dry fully before storing.
- Store in a dry, ventilated place to avoid prolonged moisture exposure.
- The net can be cut to size; cutting does not compromise the overall structure.
- Inspect periodically for wear or damage, especially after heavy use or storms.

FAQ

Q: What is the height and how is it sold?

A: The net has a height of 3 metres and is sold by the linear metre so you can buy exactly the length you need.

Q: Is it easy to install?

A: Yes. The net is lightweight and simple to handle, making installation quick using basic ties, clips, or by draping over a frame.

Q: Can I cut the net to size?

A: Yes. The net can be trimmed to fit specific dimensions without compromising its overall integrity.

Q: Is the material weatherproof?

A: The net is treated to resist water, mold, humidity, and UV exposure, helping it hold up in a range of outdoor conditions.

Q: How long will the net last?

A: With proper care and normal use, the net can last several seasons. Lifespan depends on exposure and maintenance.

Q: What uses is this net suited for?

A: Ideal for hunting blinds, birdwatching hides, privacy screens, equipment cover, and tactical or military surplus applications where low visibility is required.

Tip: Choose the length you need (sold per linear metre) and consider pairing the net with support poles or mounting accessories from the same category to speed installation and improve concealment. Browse related tactical, hunting, and outdoor cover items to complete your setup.
