Product features:

Product short description:

Medal ribbon clip designed to display your medals securely and professionally. Ideal for athletes, collectors and enthusiasts who want a neat, reliable way to keep medals properly positioned.

- **Material:** Made from high-quality materials for long-lasting use.
- **Hold:** Secure grip keeps ribbons and medals in place during wear or display.
- **Design:** Elegant, low-profile look that complements any ribbon without drawing attention.
- **Compatibility:** Fits most medal ribbons and straps.
- **Use:** Simple to attach and remove; suitable for competitions, ceremonies and collections.

Product description:

Product overview

The Medal Ribbon Clamp is a compact, gold-tone brass clip designed for anyone who needs a secure way to display medals on uniforms, jackets, or presentation cases. It is suitable for collectors, veterans, ceremonial staff, and those working with military surplus, tactical or police/duty kit.

Definition: A medal ribbon clamp is a small brass clip with a forked attachment that grips a ribbon from the back to hold a medal in place on the chest.

Main features

Compact, durable construction with two size options to fit standard and smaller gala ribbons.

- **Material:** Gold-tone brass for durability and an elegant appearance.
- **Fork-style attachment:** Quick, secure hold on ribbon fabric.
- **Easy installation:** Fits by turning the ribbon after a small rear puncture to lock the medal in place.
- **Two sizes:** 37 mm width for standard medals and 20 mm for small gala medals.
- **Precise dimensions:** 37 mm version: 3.7 cm length, 2.2 cm distance between forks; 20 mm (mignon) version: 3.0 cm length, 1.0 cm distance between forks.

How to use / When it’s useful

Quick answer: Pierce the ribbon from the rear, fold the ribbon over the clamp and press to engage the forked attachment; the medal will then sit securely on the chest. This method keeps the medal stable during wear and display.

In most cases, the larger 37 mm clamp fits standard award ribbons, while the 20 mm mignon size is best for small gala or miniature medals. Use the clamp for uniform displays, ceremonies, museum displays, or when refurbishing military surplus and duty gear.

Care and notes

Simple care keeps the clamp looking good and prevents damage to ribbons and finishes.

- Wipe with a soft, dry cloth to remove fingerprints and dust.
- Avoid strong chemicals or prolonged exposure to moisture to protect the brass finish.
- When piercing the ribbon, use a small pointed tool and test carefully to avoid fraying; consider reinforcing delicate ribbons first.
- Store separately from sharp objects to prevent scratches.

FAQ

Q: Is this clamp suitable for all medals?

A: The clamp fits most medals that use a ribbon mount. Choose the 37 mm for standard medals and the 20 mm for smaller gala or miniature medals.

Q: How do I attach the clamp to the ribbon?

A: Pierce the ribbon from the rear, fold it over the clamp and press so the forked ends hold the ribbon. The medal will then sit securely on the chest.

Q: What material is the clamp made from?

A: It is made from gold-tone brass, offering a balance of strength and an attractive finish without plating claims beyond the visible color.

Q: What are the exact dimensions of each size?

A: The 37 mm version measures 3.7 cm long with 2.2 cm between the forks. The 20 mm (mignon) version measures 3.0 cm long with 1.0 cm between the forks.

Q: Will this damage my ribbon?

A: If installed carefully, the clamp should not cause significant damage. Use a small, precise tool to pierce the ribbon and consider reinforcing delicate ribbons before attaching.

Q: Is the clamp suitable for uniform or tactical use?

A: Yes. It is appropriate for uniforms, ceremonial wear, and display—often used with military surplus, tactical, and police/duty equipment where a secure attachment is required.

Tip: Choose the correct size for your ribbon (37 mm for standard medals, 20 mm for mini/gala medals) and keep a soft cloth and a small hand tool on hand for neat, secure installation; browse related uniform and display accessories to complete your set.
