- **Materials:** Made with high-quality materials for durability and sustained use.
- **Fit:** Customizable adjustment system adapts to different body shapes.
- **Use:** Suitable for daily use by security personnel and police forces.

Product description:

Product overview

The Giubbino Antiproiettile Balistico TH2 Type is a ballistic vest designed for military, police and private security personnel who need reliable body protection during duty and tactical operations. It combines a Dyneema ballistic plate with a durable Cordura vest shell to offer certified soft

armor protection.

Definition: This is a level IIIA ballistic vest (NIJ 0101.04) intended for professional use by authorized security forces and private guards.

Main features

Practical, adjustable design built from quality materials for duty use, patrols and other tactical tasks.

- **Ballistic plate:** Dyneema soft armor providing level IIIA protection.
- **Vest shell:** Cordura DuPont outer fabric; available in blue or cotton/polyester mix.
- **Easy wear:** Central zipper lets you put the vest on like a gilet while keeping the front plate in a single panel.
- **Adjustable fit:** Velcro shoulder straps and side bands for a customized fit and mobility.
- **Available colors:** Select black or blue from the product menu.
- **Delivery:** Typical lead time is 15–20 days from order.

How to use / When it’s useful

Quick answer: Wear the vest over your regular uniform and adjust the shoulder velcro and side bands so the ballistic panel covers the chest area securely. The central zipper makes it quick to put on and remove between shifts.

In most cases, this vest is used on patrol, during escorts, checkpoints and other duty or tactical situations where soft armor is required. It is intended for professional use by military, police and licensed private security only; proof of affiliation is required to purchase.

Care and notes

Follow the manufacturer’s care instructions and check fit and certification before first use. Handle components with care and store the vest flat or hung to preserve shape.

- Check the NIJ 0101.04 label and documentation on delivery.
- Adjust velcro and side straps for a snug but comfortable fit each time you wear it.
- Delivery time: allow 15–20 days from order confirmation.
- Sale restricted to military, police or licensed private security; send a copy of your service ID to complete the purchase.

FAQ

Q: Who can buy the Giubbino Antiproiettile Balistico TH2 Type?

A: Sales are reserved for military, police and licensed private security personnel. You must send

a copy of your service ID to confirm eligibility.

Q: What protection level does the vest provide?

A: The vest provides level IIIA ballistic protection and is certified to the NIJ 0101.04 standard.

Q: What colors are available and how do I choose?

A: The vest is available in black or blue. Select your preferred color from the dropdown menu on the product page before adding to cart.

Q: How long does delivery take?

A: Standard delivery time is 15–20 days from the order date. Lead times may vary slightly depending on stock and verification of purchase eligibility.

Q: How do I adjust the vest for a proper fit?

A: Use the velcro shoulder adjustments and the side bands to tighten or loosen the vest so the ballistic panel sits comfortably over the chest without restricting movement.

Q: What documentation is required to buy?

A: You must provide a clear copy of your service or duty ID proving membership in a military, police, or licensed security organization before the sale is completed.

Tip: Choose the color option that matches your uniform and double-check fit adjustments before use; browse related tactical and military surplus items to complete your duty equipment.
