Product short description:

The Piattaforma Cosciale VH Art. 8K16 is a thigh platform for professionals, students and anyone needing a stable support for devices or work tools on the move.

- **Fit:** Ergonomic shape fits the thigh for secure, comfortable wear.
- **Use:** Stable surface for devices and tools during mobile tasks.
- **Material:** High-quality materials for durability and long service life.

Product description:

Product overview

The Piattaforma Cosciale VH Art. 8K16 is a thigh platform designed for professionals and enthusiasts who need a reliable mounting solution for holsters and gear. It suits tactical, police, duty, and military surplus users looking for a durable, versatile leg platform.

Definition: a multi-use thigh platform in injection-molded polymer with anti-slip rail straps for secure leg anchoring. Built for modular accessory attachment and adjustable belt anchoring.

Main features

Compact, robust construction with multiple attachment points for holsters, magazines, and modular systems—ideal for tactical or duty use.

- **Injection-molded polymer** for strength and long-term durability.
- **Two anti-slip rail straps** to secure the platform to the leg and reduce unwanted movement.
- **Adjustable Velcro extension** (single) for secure anchoring to the belt.
- **Central Q hole** allowing holster mounting with a double cant (angle) option.
- **Accessory attachment system** with double Z holes and double J slots for compatible kits and spring or modular systems.
- **Double Y toothed wheel** for inserting the P/caricatore 8MH00 or other compatible magazine holders.

How to use / When it’s useful

Use the platform to mount a duty or tactical holster, magazine carriers, or modular accessories on your thigh while keeping the belt anchored with the Velcro extension. Attach accessories using the Z holes and J slots to match your loadout.

Quick answer: it’s useful whenever you need a stable, adjustable leg mounting solution for holsters or magazines. In most cases, operators use it for patrol, field work, or training where quick access and secure attachment are required.

Care and notes

Simple maintenance keeps the platform working reliably; check attachment points and straps regularly.

- Wipe clean with a damp cloth and mild detergent; avoid solvents that may damage polymer.
- Inspect the anti-slip straps and Velcro extension for wear before each use.
- Verify compatibility of holsters and accessories (Kit 8K30, clips 2SM60 / 2SM75, P/caricatore 8MH00) before mounting.
- If used intensively, perform periodic checks on fasteners and mounting points to ensure continued stability.

FAQ

Q: Which accessories are compatible with the Piattaforma Cosciale VH Art. 8K16?

A: The platform accepts the Kit 8K30, accessories with screws, spring systems, and modular units that use universal clips 2SM60 and 2SM75, as well as the P/caricatore 8MH00.

Q: Is the adjustable Velcro extension included?

A: Yes. The single adjustable Velcro extension is included and allows secure anchoring to the belt for different setups and user preferences.

Q: Can I change the holster angle on this platform?

A: Yes. The central Q hole supports holster mounting with a double cant option, so you can adjust the angle to suit draw preference.

Q: Is the platform suitable for heavy or intensive use?

A: The injection-molded polymer construction and anti-slip rail straps are designed for regular professional use. Regular inspections are recommended for intensive daily use.

Q: How do I ensure the platform stays stable during activity?

A: Properly position and tighten the two anti-slip rail straps around the thigh and secure the Velcro belt extension. Check straps and mounting points before each use.

Q: Are there limited quantities available?

A: This model is offered in limited quantities. Stock can be high in demand—please add it to your cart if you want to secure one for your kit.

Tip: Choose the variant and attachment options that match your holster and magazine carriers; browse related tactical and military surplus items to complete a balanced duty or police loadout.
