Product short description:

The "Telo Tenda PVC Vegetato Spalmato" is a PVC-coated tarp made for campers, gardeners and outdoor event users who need dependable weather protection combined with a discreet camouflage appearance.

- **Material:** Made from high-quality PVC coating for water resistance and long-lasting use.
- **Use:** Ideal for camping, gardening, cover shelters and outdoor events.
- **Design:** Vegetation-pattern camouflage that blends with natural surroundings for low visibility.
- **Care:** Easy to set up, wipe clean and store between uses.

Product description:

Product overview

The Telo Tenda PVC Vegetato Spalmato is a PVC-coated, vegetation-pattern tent tarp designed for users who need a durable, weather-resistant cover for outdoor and indoor applications. It suits gardeners, campers, event organizers, tactical and military surplus users who want a natural-

looking protective fabric.

Definition: a PVC-coated tent tarp with a leaf/vegetation print that provides weather protection and easy handling. Height is listed as 1.50 (unit as provided in the original description).

Main features

Built to be practical and versatile, this tarp combines a natural-looking camouflage pattern with the protective properties of PVC coating.

- **PVC-coated material:** durable and resistant to wear for prolonged outdoor use.
- **Vegetation pattern:** leaf-style print that blends with gardens, campsites and green environments.
- **Lightweight and flexible:** easy to handle and install by one person.
- **Weather protection:** effective barrier against rain, wind and sun.
- **Sold by the linear meter:** buy the exact length you need for tents, gazebos or covers.

How to use / When it’s useful

Quick answer: use it as a tarp for tents, gazebos, pergolas, equipment covers or garden furniture protection. Its camouflage look also fits tactical, military surplus and duty gear applications where a natural appearance is preferred.

In most cases, the tarp is draped, tied or fixed with grommets (if present) or clamps to protect the area beneath from weather. Its flexibility makes it suitable for both temporary shelters and semi-permanent covers.

Care and notes

Basic care will keep the PVC-coated tarp functional and extend its service life; handle and store it dry and away from sharp edges.

- Wipe clean with a damp cloth and mild soap; avoid aggressive solvents.
- Store rolled or folded in a dry place to prevent mildew or long-term folding damage.
- Check edges and fastenings regularly for wear; repair small tears promptly.
- Note: height is shown as 1.50 in the original listing—please confirm the unit (cm or m) if needed before ordering.

FAQ

Q: What is the height of the Telo Tenda PVC Vegetato Spalmato?

A: The original listing indicates a height of 1.50. The unit was given in the source text as "1,50 cm"; please confirm the required unit (cm or m) when ordering.

Q: How is the price calculated?

A: Price is quoted per linear meter, so you can order the exact length you need for your project. Specify the quantity in meters at checkout.

Q: Is the tarp weather resistant?

A: Yes. The PVC coating provides protection against rain, wind and sun, making it suitable for outdoor coverage and equipment protection.

Q: Is it easy to install?

A: Yes. The tarp is lightweight and flexible, so installation is straightforward and can usually be done by one person using ties, clamps or grommets if available.

Q: What can I use this tarp for?

A: It works well as a cover for tents, gazebos, pergolas, garden furniture or equipment. The vegetation pattern also makes it useful for tactical or military surplus applications where natural concealment is desired.

Q: Is the product in stock?

A: The original description notes limited availability and high demand. Stock levels can change quickly, so add the item to your cart or contact the seller to confirm availability.

Tip: Choose the correct length and confirm the height unit before purchase; consider browsing related tarps and accessories (fasteners, grommets, repair kits) to complete your setup without delays.
