- **Material:** Built from robust materials for durability in demanding conditions.
- **Design:** Ergonomic design for comfort during long outings.
- **Use:** Suitable for hiking, trekking and field activities.

Product description:

Product overview

The Vegetato 35L Backpack with camelback is a compact tactical pack designed for outdoor enthusiasts, military surplus collectors, and duty or police use. It combines durable materials, a built-in hydration bladder, and modular attachment points for versatile carry.

Definition: A 35?liter tactical backpack in Italian Vegetato camouflage with a 3?liter camelbag included. Ideal for day hikes, patrols, or everyday carry when you need a reliable, lightweight pack.

Main features

Built for durability and modular use, with features that support hydration and customizable loadouts.

- **35 liters** capacity in reinforced Cordura fabric for abrasion and weather resistance.
- **Italian Vegetato camouflage** pattern for natural concealment and a military-style look.
- **3 L camelbag included** for on-the-go hydration.
- **Padded, adjustable shoulder straps** to improve comfort and weight distribution.
- **MOLLE attachments** on front and sides for adding pouches and accessories.
- **Inspectible anti-sweat back** panel with Velcro closure for ventilation and easy maintenance.
- **Expandable** (accordion-style) via dedicated zippers to increase internal volume when needed.

How to use / When it’s useful

Quick answer: Use this backpack for day hikes, tactical training, patrols, or as a durable urban carry option. It is compact enough for everyday use yet structured for outdoor and duty tasks.

In most cases, load heavier items closer to your back, use the MOLLE attachments to distribute gear, and keep the camelbag filled for long outings. The expandable compartment adds flexibility when you need extra space.

Care and notes

Maintain the pack to extend service life and protect the hydration bladder.

- Wipe clean with a damp cloth; avoid harsh detergents that can degrade Cordura fabric.
- For heavy rain, use an additional rain cover for full waterproofing—Cordura is water-resistant but not fully waterproof.
- Empty and dry the camelbag after each use to prevent odors and mold.
- Check Velcro and zippers regularly; replace or repair worn parts to preserve functionality.

FAQ

Q: Is the backpack waterproof?

A: The reinforced Cordura fabric is water-resistant and will shed light rain. For heavy or prolonged rain, use an extra rain cover for complete protection.

Q: Is the camelbag included and what size is it?

A: Yes. A 3?liter camelbag/hydration bladder is included with the pack and fits in the dedicated hydration compartment.

Q: Are the shoulder straps adjustable?

A: Yes. The shoulder straps are padded and fully adjustable to help distribute weight and improve comfort during long carries.

Q: Can I add extra pouches or gear?

A: Yes. The front and side MOLLE attachment points allow you to mount additional pouches, tools, or modular accessories to suit tactical, hiking, or duty needs.

Q: What are the exact dimensions and weight?

A: Dimensions: Height 45 cm, Width 25 cm, Depth 25 cm. Weight: 845 g. Capacity is 35 liters (expandable with zipper).

Q: Is the back panel removable or serviceable?

A: The back panel is inspectible and features a Velcro closure for access and cleaning. This helps keep the pack ventilated and easy to maintain.

Tip: Choose the right variant and size based on how you plan to use the pack (daily carry, hiking, or duty). Browse related tactical and military surplus items to complete your setup with pouches, rain covers, or replacement hydration bladders.
