Product short description:

Polished chrome-plated brass office base with two fittings, designed for professionals and customers seeking a refined, practical desk accessory. Ideal for offices, reception areas and workstations where a neat, professional appearance is required.

- **Material:** Brass with a polished chrome finish for a refined appearance.
- **Use:** Stable base with two fittings to support various devices or desk accessories.
- **Stability:** Dual fittings provide secure support and flexible positioning on desks and counters.
- **Design:** Modern, understated style that complements professional interiors.

Product description:

Product overview

The Polished Chrome-Plated Brass Office Base with 2 Fittings is a heavy-duty table or desk base

designed for professional and commercial environments that need stability and refined appearance. It suits offices, reception areas, and any workspace requiring a sturdy support with a polished metal finish.

Definition: a 27 cm x 27 cm brass base with a heavy cast-iron core and two fittings for quick mounting.

Main features

Built from durable materials with a weight-focused design, this base combines a refined look with practical sturdiness for daily use.

- **Material:** Polished chrome-plated brass body with a heavy cast-iron core.
- **Dimensions:** Height 27 cm, length 27 cm.
- **Fitting diameter:** 22 mm (two fittings for attachment).
- **Core diameter:** Heavy cast-iron core, 29 cm diameter, for added stability.
- **Weight:** 10 kg for reliable, stable support.
- **Finish:** Bright chrome appearance suitable for professional office furniture.

How to use / When it’s useful

Use this base as the support for desks, tables, or stands where a polished metal look and strong stability are important. The two fittings allow fast assembly with compatible poles or table columns that match the 22 mm fitting diameter.

Quick answer: it is a heavy-duty office base ideal for desks and small tables where balance and a refined finish matter.
In most cases, pairing it with a compatible column or tabletop of matching fitting size will provide a secure, professional result.

Care and notes

Simple care preserves the chrome-plated brass finish and ensures long service life; handle the base carefully due to its weight.

- Wipe with a soft, damp cloth and dry immediately to avoid water spots.
- Avoid abrasive cleaners that could scratch the chrome-plated surface.
- Lift with care or with two people—the base weighs 10 kg.
- Ensure compatible 22 mm fittings on the mating part for correct installation.

FAQ

Q: What are the exact dimensions of the base?

A: The base measures 27 cm in height and 27 cm in length. The fitting diameter is 22 mm and the cast-iron core has a 29 cm diameter.

Q: What materials are used in this base?

A: The visible outer material is polished chrome-plated brass, while the internal core is heavy cast iron for extra stability.

Q: How much does the base weigh?

A: The base weighs 10 kg, providing a sturdy, stable support for compatible tabletops or columns.

Q: Is the base easy to mount?

A: Yes. It features two fittings designed for quick and secure assembly with parts that match the 22 mm fitting diameter.

Q: Will the design fit any style of furniture?

A: The polished chrome-plated brass finish gives a modern, professional look that pairs well with many office and commercial interiors.

Q: Any safety or handling concerns?

A: Handle the base carefully due to its 10 kg weight. Use two people for lifting if needed and confirm fitting compatibility before installation.

Tip: Choose the correct fitting size (22 mm) and confirm tabletop or column compatibility before purchase; consider browsing related professional and heavy-duty office bases to find the best match for your workspace.
