Product short description:

A vegetation-style waterproof, windproof jacket with an integrated pouch, ideal for outdoor enthusiasts. Made from quality materials, it keeps you dry and comfortable while blending into natural surroundings. The built-in pouch lets you carry essentials hands-free, making it practical for hikes, camping and everyday nature walks.

- **Material:** Constructed from high-quality, durable fabrics for regular outdoor use.
- **Protection:** Waterproof and windproof to shelter you from rain and gusts.
- **Pouch:** Integrated waist pouch provides secure, low-profile storage for essentials.
- **Weight:** Lightweight design for easy movement on trails and at camp.
- **Use:** Suited to hiking, camping and casual nature walks.

Product description:

Product overview

The **SBB Vegetated Waterproof Windproof Jacket with Packable Pouch** is a lightweight, packable outer layer for outdoor enthusiasts, field operators and anyone who needs reliable protection from wind and rain. It suits hikers, campers, military surplus buyers, tactical users and duty or police personnel needing a compact, functional jacket.

Definition: a packable, waterproof and windproof jacket in a vegetated (vegetato) pattern that folds into an integrated pouch with a MOLLE attachment system for easy transport.

Main features

Designed for practical use and durability, the jacket combines Rip-Stop fabric and sealed seams with features that improve comfort and portability.

- **Material:** 100% Polyester Rip-Stop for improved tear and abrasion resistance.
- **Water protection:** waterproof and water-repellent treatment to keep moisture off the surface.
- **Windproof:** blocks wind to help retain warmth.
- **Seams:** all seams heat-sealed for enhanced waterproof performance.
- **Packable pouch with MOLLE:** jacket folds into the integrated pouch and can be attached to packs, belts or gear.
- **Practical details:** front zip with storm flap, elastic cuffs, adjustable hood, rear ventilation and two lower zip pockets.
- **Packed weight:** approximately 185 grams when folded into the pouch.

How to use / When it’s useful

Quick answer: use this jacket as a lightweight shell over base layers for protection from rain and wind during hiking, camping, climbing, airsoft, field work or daily commuting. In most cases, it works as an outer layer that stows small when not needed.

The vegetated pattern offers discreet camouflage for natural environments, making the jacket suitable for hunting, softair and field operations, while its compact design is convenient for tactical, military surplus and duty use. Pack it into the pouch and attach it to a backpack or belt with the MOLLE system for easy access.

Care and notes

Simple care keeps the jacket performing: treat it like other waterproof shells and store it dry before packing.

- **Washing:** use cold water and a mild detergent; avoid bleach and fabric softeners.
- **Drying:** air dry away from direct sunlight.
- **Packing:** ensure the jacket is completely dry before folding it into the internal pouch.
- **Maintenance:** reapply a suitable water-repellent treatment as needed to maintain surface

performance.

FAQ

Q: Is the SBB vegetated waterproof jacket suitable year-round?

A: Yes. The jacket protects against wind and rain and can be worn over insulating layers in colder weather. Use it as a shell in variable conditions.

Q: How does the MOLLE pouch system work?

A: The integrated pouch folds from the jacket and includes MOLLE attachment points so you can secure it to backpacks, belts or other compatible gear for hands-free carry.

Q: What sizes are available?

A: The jacket is offered in a range of sizes to ensure a proper fit. Check the size guide or product options to choose the best size for your layering needs.

Q: Can I machine wash the jacket?

A: Yes, machine washing is possible on a gentle, low-temperature cycle, but using cold water and a mild detergent is recommended to preserve the waterproof finish and fabric quality.

Q: Is the hood removable?

A: No, the hood is integrated and not removable; it is adjustable with an elastic cord to fit snugly around the head.

Q: How heavy is the jacket when packed?

A: When folded into its internal pouch, the jacket weighs approximately 185 grams, making it easy to carry and store with other tactical or everyday gear.

Tip: Choose the right size for comfortable layering and check related tactical and military surplus items to complete your kit. Consider browsing compatible belts, packs or base layers for the best field setup.
