Product overview

The Fregio Basco 9° Reggimento Fanteria Bari Trani is a regimental beret badge intended for collectors, military history enthusiasts, and buyers of tactical or military surplus items. It is also suitable as a display piece for museums or private collections.

Definition: a metal beret badge showing the emblem of the 9° Reggimento Fanteria Bari Trani, finished in silvered, burnished metal. This product serves both as a wearable insignia and a collectible item for duty, police, and historical display purposes.

Main features

Clear, durable construction and faithful emblem detail make this badge suitable for wear on a beret or for display in a collection.

- **Material:** silvered, burnished metal for durability and visual depth.
- **Design:** round-ring badge with two crossed rifles topped by a straight-flame grenade and the numeral 9 at the base.
- **Size:** 5.5 cm diameter — compact and suitable for beret mounting or display.
- **Finish:** patinated look that preserves detail and reduces visible wear.
- **Supply on request:** production and delivery within 15–20 days from payment.

How to use / When it’s useful

Use the badge to outfit a beret for ceremonial or historical reenactment purposes, or mount it in a shadow box for a collection. It is also useful for tactical and military surplus displays where authentic-looking regimental insignia are required.

Quick answer: it fits most berets and can be worn or displayed. In most cases, buyers who collect military or police insignia choose this item for its detailed emblem and metal construction.

Care and notes

Basic metal care will keep the badge looking its best; handle the piece by the edges and store in a dry place when not in use.

- Avoid prolonged exposure to moisture and corrosive chemicals to preserve the finish.
- Clean gently with a soft cloth; do not use abrasive cleaners.
- Supply is limited; expect a 15–20 day lead time after payment for production and delivery.
- Quantity requests are possible but subject to production availability and timing.
