- **Material:** Quality fabric for comfortable, durable wear.
- **Color:** Neutral shade for versatile styling.
- **Fit:** Classic beret shape with a comfortable, secure fit.
- **Use:** Everyday accessory that complements a wide range of outfits.
- **Style:** Minimal, refined design without numbers or unit markings.

Product description:

Product overview

Pulce Basco Neutra Senza Numero is a small neutral beret disc for anyone who needs a discreet, professional finish on a beret insignia — suitable for collectors, uniform users, tactical and police gear enthusiasts. It is designed for easy fitting onto beret badge mounts without any

engraved number or marking.

Definition: a 0.9 cm silvered, burnished metal disc with two side tabs that fold into the badge mount to hold the piece in place.

Main features

Compact, neutral and built to last, this pulce (disc) fits many beret insignia types used in tactical, military surplus and duty equipment.

- **Material:** silvered, burnished metal for durability and a subdued look.
- **Neutral design:** no numeric engraving for a clean, versatile appearance.
- **Easy to fit:** two side tabs insert into the badge mount and are folded to secure.
- **Compact size:** diameter 0.9 cm, discreet on most beret badges.
- **Versatile use:** compatible with various beret insignia and styles.

How to use / When it’s useful

Quick answer: insert the two tabs into the number-holder holes on the beret badge and fold them down to lock the disc in place. This provides a neat, number-free finish for badges used in tactical, police, or collector applications.

In most cases, the disc is useful when you want a simple, professional look or need to replace a numbered insert. Fit is fast and requires no special tools; carefully fold the tabs to avoid deforming the badge or disc.

Care and notes

Keep the disc looking good with light care and note availability limits and fixed size.

- Wipe with a soft, dry or slightly damp cloth; avoid harsh chemicals that may alter the finish.
- Handle and fold the tabs gently to prevent bending the disc or badge mount.
- Size is fixed: diameter 0.9 cm — confirm fit with your badge before installation.
- Limited stock: availability may be restricted due to demand.

FAQ

Q: What is the diameter of the Pulce Basco Neutra Senza Numero?

A: The disc measures 0.9 cm in diameter. It is small and intended to be discreet on beret badges.

Q: How do I fit the disc to my beret badge?

A: Insert the two side tabs into the number-holder holes on the badge and fold the tabs down to

secure the disc. Fold carefully to avoid damage.

Q: What material is the disc made of?

A: It is made of silvered, burnished metal designed for durability and a subdued finish.

Q: Is this disc suitable for all beret types?

A: It fits many types of beret insignia and badge mounts, commonly used in tactical, military surplus and police contexts; always check the badge mount size first.

Q: Are there other sizes or colors available?

A: Currently the item is available only in the 0.9 cm size and silvered burnished finish. No other sizes or colors are listed at this time.

Q: Can the disc be removed later?

A: Yes, remove it by carefully unfolding the folded tabs and sliding the disc out of the badge mount. Take care to avoid bending the tabs or badge.

Tip: Choose the correct size and confirm compatibility with your beret badge before ordering; browse related beret accessories and spare parts to match finishes and mounting styles.
