How to use / When it’s useful

Quick answer: attach the patch by pressing the velcro backing onto the loop field of your uniform or jacket; it fits standard duty placement for a Primo Luogotenente patch. This makes it a practical option for operational uniforms and tactical use.

In most cases, the patch is used on duty or training jackets, jumpsuits, or tactical vests where rank must be visible. It is also of interest to military surplus collectors who hold the required ex art. 28 TULPS license.

Care and notes

Keep the patch clean and attach it to compatible loop surfaces; follow these practical notes before purchase.

- Sale is restricted: you must provide a copy of your GdF ID or set the delivery address to your Command of Tenenza for verification.
