How to use / When it’s useful

Quick answer: Use this nastrino on formal uniform ribbon bars, presentation displays, or mounted collector boards to represent the Valore Civile award. In most cases, the 37 mm regulation size is the correct choice for official displays and standard ribbon holders.

Choose the Elite variant if you prefer a slightly curved appearance for display pieces; select the appropriate rear attachment (screw or clamp) when adding it to a ribbon bar or metal base. This makes it suitable for military, police, duty, and private collection contexts where accurate representation is needed.
