How to use / When it’s useful

Use the ribbon on a single uniform mount or add it to a multi-slot ribbon bar for orderly presentation. Quick answer: mount the 37 mm ribbon on a compatible portanastrini to display multiple ribbons together.

For collectors, museums, ceremonial displays or tactical/military surplus retail, the ribbon gives an accurate visual representation of the award. In most cases, people choose the flat regulatory format for official accuracy or the Elite variant when a slightly raised finish is preferred.

Store and handle the ribbon like any small metal and fabric display item to keep its appearance and attachment secure.

- Keep dry and avoid abrasive contact; clean gently with a soft cloth.
- Available only in the 37 mm size and only with the bronze star version.
- Select portanastrini from the product options if you want a multi-ribbon mount.
