- **Performance:** Keeps beverages hot or cold for hours, preserving taste.
- **Design:** Elegant, durable construction for travel, outdoor work or breaks.
- **Care:** Easy to carry and clean for everyday use.

Product description:

Product overview

The Thermos Blue 1 Liter Leakproof is a durable, 1 L Tritan bottle designed for people who need a reliable way to carry hot or cold drinks—commuters, hikers, gym users and duty professionals. Definition: a 1-liter leakproof Tritan thermos for hot and cold beverages.

Made from impact-resistant Tritan plastic in blue, it features a leakproof screw cap with an attached loop and measurement marks in ml and oz. Compact and easy to carry, it suits tactical, outdoor and duty use where a sturdy, refillable bottle is needed.

Main features

Key features focused on durability, portability and everyday convenience.

- **Durable Tritan material:** impact-resistant, BPA-free plastic for long-lasting use.
- **Leakproof cap:** screw-on cap with a secure seal to prevent spills.
- **Attached loop:** cap is connected to the bottle with a loop for easy fastening to a backpack strap or bag.
- **Measurement marks:** clear ml and oz graduations for accurate pouring and mixing.
- **Compact size:** 9.5 cm (W) x 22 cm (H), fits most bag pockets and holders.
- **Easy to clean:** simple design that can be cleaned by hand or in the dishwasher.

How to use / When it’s useful

Use the Thermos Blue to carry coffee, tea, water or cold drinks during travel, work shifts, training or outdoor activities. Fasten the bottle by the loop to a backpack strap or place it in a side pocket for easy access.

Quick answer: it keeps drinks hot or cold for several hours and is intended for everyday and field use. In most cases, avoid storing carbonated beverages, as pressure can affect the seal and safety of the cap.

Care and notes

Simple care keeps the thermos performing well and extends its life.

- Wash before first use and clean regularly by hand or in the dishwasher.
- Check the cap seal periodically for wear to maintain leakproof performance.
- Not recommended for carbonated drinks—pressure may compromise the seal.
- Product is BPA-free; handle to avoid strong impacts that could crack the body.

FAQ

Q: Is this thermos suitable for hot and cold drinks?

A: Yes. The Thermos Blue is designed to keep beverages hot or cold for several hours, making it suitable for both warm and cold drinks.

Q: Is the cap truly leakproof?

A: The screw-on cap has a seal designed to prevent leaks and spills. Check the seal regularly and tighten the cap fully before transport.

Q: Can I put the thermos in the dishwasher?

A: Yes. The design and materials allow for cleaning by hand or in a dishwasher. Rinse and dry thoroughly after washing.

Q: Can I use it for carbonated drinks?

A: It is not recommended. Carbonation can build pressure and may affect the leakproof cap or cause safety issues.

Q: Is the bottle BPA-free?

A: Yes. The thermos is made from Tritan plastic, which is BPA-free and suitable for food and drink contact.

Q: What are the dimensions and capacity?

A: Capacity is 1 liter. External dimensions are approximately 9.5 cm wide x 22 cm high, suitable for most bags and standard bottle holders.

Tip: Choose the right variant or size for your routine and check related drinkware and accessories to complete your kit—options for tactical, outdoor and duty use are available to match different needs.
