- **Use:** Ideal for cycling, motorcycling and general outdoor use.
- **Style:** Practical design that pairs function with a clean look.

Product description:

Product overview

The Bobster Lens and Removable Temples Set is a versatile eyewear kit for users who need adaptable eye protection for everyday wear, tactical use, or outdoor sports. It is suitable for cyclists, motorcyclists, law enforcement, and anyone seeking a multi-purpose protective goggle solution.

Definition: A set of Bobster glasses with three interchangeable anti-fog polycarbonate lenses and removable temples that can be swapped for helmet straps. Designed for comfort, visibility, and quick configuration changes.

Main features

Compact, easy to change components and basic ventilation make this set a practical choice for duty, tactical, and outdoor use.

- **Three interchangeable anti-fog polycarbonate lenses** in black, white, and amber for varied light conditions.
- **Removable temples** that detach with a light press near the frame attachment for fast conversion.
- **Helmet strap compatible** — temples can be replaced with elastic straps for secure fit with helmets.
- **Ventilated frame** with upper perforations to improve breathability around the eye area.
- **Nylon carrying case included** for safe storage and transport.

How to use / When it’s useful

Quick answer: Use the lens color that matches current light—amber for low light, darker lenses for bright conditions—then attach temples or a helmet strap depending on activity. Swapping lenses and temples is a tool-free, on-the-go process.

In most cases, these glasses work well for cycling, motorcycling, tactical training, and general outdoor work where you may need different lens tints and a secure fit. For helmeted activities, replace the temples with the elastic straps before starting.

Care and notes

Basic care keeps lenses clear and removable parts functioning correctly. Check fittings before active use to ensure safety.

- Clean lenses with a soft cloth and mild cleaner to avoid scratching the polycarbonate.
- Store glasses in the included nylon case when not in use.
- Inspect temples and attachment points regularly; reattach firmly before vigorous activity.
- Do not use if lenses are cracked or attachments are damaged.

FAQ

Q: What lens colors are included?

A: The set includes three polycarbonate anti-fog lenses in black, white, and amber to cover a range of light conditions.

Q: How do I remove the temples?

A: Press lightly near the temple attachment on the frame to release the temples. Reattach by aligning and snapping them back into place.

Q: Can I use these glasses with a helmet?

A: Yes. The temples are removable and can be replaced with elastic helmet straps for a secure fit during helmeted activities.

Q: Is the frame breathable?

A: The frame has upper perforations that improve airflow around the eye area to reduce fogging and increase comfort.

Q: Does the set include a case?

A: Yes, a practical nylon carrying case is included for protection and transport.

Q: Are these suitable for tactical or duty use?

A: These glasses are suitable for general tactical, duty, and outdoor use where interchangeable lenses and secure attachment options are needed. Verify they meet your specific operational requirements before relying on them in critical situations.

Tip: Choose the lens tint and attachment option that best match your typical conditions and browse related tactical and outdoor eyewear for alternatives and replacement parts.
