Main features

Key characteristics that make this nastrino a reliable and respectful emblem of service:

- **Official design:** green background with the municipal coat of arms of Udine, representing authority and community service.
- **High-quality materials:** built for long-lasting appearance and resistance during operational use.
- **Two formats:** flat regulatory version or slightly domed "Elite" for a more three-dimensional look.
- **Attachment options:** practical clips (morsetti) or secure screws for prolonged wear.

How to use / When it’s useful

Quick answer: wear the nastrino on the uniform where service ribbons are normally placed to show earned commendations. In most cases, the flat regulatory format suits everyday duty while the Elite domed version is preferred for formal ceremonies.

Choose clips if you need easy removal and repositioning; choose screws when you require a more stable, long-term fit during active duty. Multi-ribbon holders are useful for officers who need to display more than one award neatly on a single base.

Care and notes

Basic care and selection notes to keep the nastrino looking its best and fitting your operational needs:

- Keep the ribbon dry and avoid harsh chemicals to preserve colors and details.
- Use clips for quick removal; use screws for greater stability during active or prolonged use.
- Store unused ribbons flat or in a ribbon holder to prevent bending or creasing.
- Check attachment tightness periodically if the ribbon is worn daily.
