- **Fit:** Athletic cut with freedom of movement for active use.
- **Features:** Reflective elements for improved visibility in low light and zippered pockets for secure storage.
- **Options:** Available in multiple sizes and colors.

Product description:

Product overview

The Tuta Sportiva Esercito 2020 is a two-piece military tracksuit designed for service members, law enforcement, and anyone needing functional duty wear for training and field use. It combines

a polyester jacket and matching trousers with practical details for movement and quick changes.

Definition: a polyester military tracksuit with a jacket and pants, featuring embroidered Esercito logos and Velcro for patches. Suitable for tactical training, warm-ups, daily duty, and military surplus collections.

Main features

Built for durability and comfort, this tracksuit focuses on practical elements that support agility and simple customization.

- **100% polyester** construction for lightweight durability and easy care.
- **Hidden central zipper** on the jacket for a smooth surface during movement.
- **Embroidered Esercito logo** on the chest, back and right leg for clear identification.
- **Velcro panels** allow adding unit or name patches for personalization.
- **Elastic cuffs** on the jacket to limit wind and water entry at the wrists.
- **Zippered side pockets** on jacket and trousers for secure storage of essentials.
- **Adjustable waist and zippered leg hems** on the pants for quick dressing and a tailored fit.

How to use / When it’s useful

Use the Tuta Sportiva Esercito 2020 for physical training, warm-ups, duty transport, and non-combat field tasks where mobility and identification are important. The Velcro areas make it easy to attach patches for unit, role, or police/tactical ID.

Quick answer: wear it for training, patrol preparation, or casual duty tasks. In most cases, its lightweight polyester build is suitable for layering under outer shells or wearing alone during milder conditions.

Care and notes

Follow simple care steps to keep the tracksuit functional and maintain the embroidered details.

- Machine wash cold with like colors; fasten zippers before washing.
- Avoid bleach and strong detergents to preserve embroidery and Velcro function.
- Not a guaranteed waterproof garment; elastic cuffs help limit water entry but do not make it fully water-resistant.
- Choose the correct size using the site size guide to ensure proper fit and range of motion.

FAQ

Q: What sizes are available for the Tuta Sportiva Esercito 2020?

A: A detailed size guide is provided on the product page to help you select the correct size.

Measure chest, waist and hips and compare to the chart for best fit.

Q: Is this tracksuit suitable for everyday wear?

A: Yes. It is designed for comfort and functionality for daily use, training sessions, and duty-related tasks where mobility and a professional appearance matter.

Q: Can I add custom patches or name tags?

A: Yes. The jacket includes Velcro panels that allow adding unit patches, rank insignia or other identification badges as needed.

Q: Is the tracksuit waterproof?

A: No. The tracksuit is not fully waterproof. Elastic cuffs reduce wind and water entry at the wrists, but it should not be relied on for prolonged exposure to heavy rain.

Q: What colors are available?

A: The jacket is supplied in a light blue and navy combination, while the trousers are in matching navy tones. Embroidered Esercito logos are applied as described.

Q: Is the product in stock?

A: Stock levels can vary. The Tuta Sportiva Esercito 2020 is offered in limited quantities; check the product page for current availability and order promptly if your size is shown.

Tip: Consult the size guide before ordering and consider the intended use (training, duty, layering) when choosing a size. Browse related tactical and military surplus items to complete your kit and ensure matching pieces.
