- Two formats: regular flat and slightly convex Élite variant for a different finish.
- Add-on options: choose a single-ribbon holder or multi-ribbon metal display cards for neat presentation.
- Loose ribbon available: 37 mm width, sold from a minimum length of 50 cm for custom mounting.
- Ordering made via dropdown selections for format, variant and packaging.

How to use / When it’s useful

Quick answer: use the ribbon for display on uniform mounts, memorial boards, museum cases or as part of a private collection. It works well for collectors, reenactors and retail displays in military surplus or tactical gear shops.

In most cases, choose the Élite variant for a slightly raised appearance or the regular for a classic flat look. Select a ribbon holder or a multi-place display board if you plan to show several ribbons together; order loose ribbon if you need custom lengths for tailoring or mounting.

Care and notes

Keep the ribbon clean and store it flat or mounted to preserve appearance; select the correct format and minimum lengths before ordering.

- Store in a dry, cool place away from direct sunlight to avoid fading.
- Handle mounted ribbons carefully to prevent bending or detaching from holders.
- Loose ribbon minimum order: 50 cm (37 mm wide) — measure before purchase for custom projects.
- Limited availability: consider ordering promptly if you need a specific variant or packaging.
