Product short description:

Zaino Tattico Vegetato 30 Litri 600 D is a 30?liter tactical backpack in vegetato camouflage, made from durable 600D fabric. Built for outdoor use, it suits day hikes, fieldwork and tactical tasks, offering a reliable, practical carry solution.

- **Material:** Durable 600D fabric for good abrasion resistance and long-lasting use.
- **Capacity:** 30 litres—ample space for daily outings or more demanding missions.
- **Pattern:** Vegetato camouflage designed to blend with natural environments.
- **Fit:** Adjustable shoulder straps and ergonomic shape for comfortable carrying.
- **Organization:** Multiple compartments and pockets to keep gear accessible and orderly.

Product description:

Product overview

The Zaino Tattico Vegetato 30 Litri 600 D is a 30?litre tactical backpack designed for outdoor activities, fieldwork and duty use by hikers, campers, military surplus enthusiasts and police personnel. It is a durable, versatile pack built to carry essentials without being bulky.

Definition: a compact 30 L tactical backpack made from 600 D fabric with MOLLE webbing and a dedicated hydration pocket. The pack balances storage, comfort and modularity and is suitable for day trips, short missions and everyday duty use.

Main features

Key features for organizing gear, adding accessories and carrying comfortably on long outings.

- **30?litre capacity**: roomy enough for essentials while remaining compact.
- **600 D fabric**: durable textile designed for long?term use in rough conditions.
- **Multiple pockets**: main compartment and secondary compartment with internal slip pockets for documents, maps and accessories, plus two front pockets for quick access.
- **MOLLE system**: external webbing lets you attach extra pouches and modular accessories.
- **Padded, adjustable shoulder straps and waist belt**: height?adjustable straps with sliding buckles and a lumbar strap for improved load distribution.
- **Hydration pocket**: rear velcro opening for inserting a hydration bladder (hydro pocket).
- **Carry and evacuation handle**: reinforced top handle for easy lifting and emergency handling.

How to use / When it’s useful

The pack is suited to day hikes, camping, short tactical missions and daily duty where a reliable, modular backpack is needed. Use the main compartment for clothing and larger items, the secondary compartment for maps and documents, and the front pockets for items you need to reach quickly.

Quick answer: ideal for day trips, patrols and fieldwork where 30 L is sufficient. In most cases, add MOLLE pouches to expand storage or insert a hydration bladder in the rear pocket for on?the?move hydration.

Care and notes

Simple care keeps the backpack functional and extends its life. Check attachments and fastenings before each use.

- Clean with a damp cloth and mild soap; air dry completely before storage.
- Avoid prolonged exposure to direct sunlight to reduce fabric fading and wear.
- Secure all buckles and zippers before movement; check MOLLE attachments for proper fit.
- Confirm compatibility of your hydration bladder before purchase; the rear pocket uses a velcro opening.

FAQ

Q: What is the backpack capacity?

A: The backpack holds 30 litres, suitable for day trips, short missions and carrying essential gear without excess bulk.

Q: What material is the backpack made of?

A: It is made from 600 D fabric, a durable textile commonly used in tactical and outdoor gear for good abrasion resistance.

Q: How many pockets does it have?

A: There is a main compartment and a secondary compartment with internal slip pockets, plus two front pockets for quick access to frequently used items.

Q: Can I attach extra pouches?

A: Yes. The exterior is covered with MOLLE webbing so you can add compatible pouches and accessories for extra storage and modular setup.

Q: Is there space for a hydration bladder?

A: Yes. A rear velcro opening provides a pocket where you can insert a hydration bladder (hydro pocket). Check your bladder size for compatibility.

Q: Are the shoulder straps comfortable for long use?

A: The shoulder straps are padded and height?adjustable with sliding buckles; a lumbar strap is included to improve comfort on longer walks.

Tip: Choose the right variant and check hydration bladder compatibility before adding to cart. Browse related tactical and military surplus gear to complete your kit, such as modular pouches, hydration systems and duty accessories.
