Product short description:

Mascherina Vegetata Doppio Strato is a double-layer face mask with a vegetation camouflage pattern, designed for everyday use by those who want comfort and a tactical-inspired look. It blends a soft, ergonomic fit with a discreet, military-style print suitable for casual and outdoor wear.

- **Material:** Made from quality, soft fabric for comfort during prolonged wear.
- **Design:** Ergonomic shape that follows facial contours for a comfortable fit.
- **Protection:** Double-layer construction adds an extra barrier compared to single-layer masks.
- **Use:** Ideal for daily use; pairs easily with casual or tactical outfits.

Product description:

Product overview

The **Vegetated Double-Layer Mask** is a reusable cotton face mask with a vegetated pattern, designed for users who want practical protection with a tactical look. It suits civilians, tactical and military surplus enthusiasts, and professionals seeking a duty-style face covering.

Definition: a double-layer 100% cotton mask with a hydrophobic non-woven polypropylene (TNT) inner layer for added particle barrier and daily wear comfort.

Main features

Built for comfort and simple maintenance, this mask combines a cotton outer layer and a water-repellent inner layer with construction details that improve fit and wearability.

- **Outer material:** 100% cotton vegetated fabric for comfort and style.
- **Inner layer:** TNT (non-woven fabric) 100% polypropylene, hydrophobic, 40 g/m².
- **Standards:** Composition complies with d.lgs 22/05/1999 n.194.
- **Comfort fit:** Soft ear elastics for extended wear.
- **Adjustable shape:** Central pleats improve adaptability to different face shapes.
- **Origin:** Made in Italy.

How to use / When it’s useful

Use the mask as a reusable face covering for everyday situations—commuting, travel, outdoor activities, or when you prefer a tactical/military surplus style. It is intended as a barrier mask for general use and should be used following local health guidance.

Quick answer: Wear with the pleats vertical and ear elastics comfortably around the ears. In most cases, replace the mask if the cotton or inner TNT shows wear, damage, or reduced fit.

Care and notes

Simple care keeps the mask effective and comfortable. Follow these maintenance steps and warnings to prolong life and performance.

- Wash with a hydroalcoholic solution (70% alcohol, 30% water) as stated; allow to dry fully before reuse.
- Inspect regularly and replace if seams, pleats, or inner layer are damaged.
- Avoid aggressive chemicals or bleaching agents that can degrade the fabrics.
- Not sold as a certified medical device; follow official health and safety recommendations for protective equipment.

FAQ

Q: Is the mask washable?

A: Yes. The mask can be cleaned using a hydroalcoholic solution (70% alcohol, 30% water) as described. Allow it to dry completely before wearing again.

Q: What materials are used?

A: The outer layer is 100% cotton (vegetated pattern) and the inner layer is TNT non-woven fabric, 100% polypropylene, hydrophobic, 40 g/m².

Q: Does the mask meet safety standards?

A: The composition complies with Italian legislative decree d.lgs 22/05/1999 n.194. It is intended as a general-use face covering, not a medical respirator.

Q: Are the ear elastics comfortable for long wear?

A: Yes. The ear loops are made from soft elastic designed to reduce pressure and improve comfort during extended use.

Q: Will this mask fit different face shapes?

A: The central pleats allow better adaptability to various face shapes and sizes, improving coverage for most users.

Q: Is this product made in Italy?

A: Yes. The mask is manufactured in Italy and finished to the stated composition and quality standards.

Tip: Choose the right variant or size for a snug fit and check related tactical, military surplus, or duty-style face coverings to find matching items and accessories for your needs.
