How to use / When it’s useful

Quick answer: choose the flat or Elite variant, select clamps or screws if needed, and attach to a single ribbon holder or a multi-ribbon mount for display. The ribbon is primarily for collection, exhibition, or historical display rather than active duty wear.

In most cases, collectors and museums display the ribbon on a multi-ribbon bar or framed mount to preserve condition and show provenance. For retail or tactical/military surplus sellers, offer the optional mounting accessories to meet customer preferences and secure the ribbon for transport and display.
