How to use / When it’s useful

Quick answer: Wear the sabre on the left hip, attached to the belt pendaglio, and ensure its length is proportionate to your height for smooth extraction. Proper fit is essential for routine armed services and ceremonial duties.

In most cases, the sabre is used during armed services and when wearing the Grande Uniforme by inspectors. Pair it with the matching dragona and pendaglio for full dress; those items must be ordered separately.

Care and notes

Basic handling and order notes to keep the sabre serviceable and to ensure a valid purchase.

- Length must be proportionate to your stature, measured perpendicular from the navel to the ground.
- Exceeding the recommended length can make sabre extraction difficult.
- Sale reserved to Polizia Penitenziaria members; purchase requires verification of ID or service attestation.
- Lead time: supply time is 20 working days; PayPal payments are not accepted for this item.
