Definition: these are heat-sealed plastic rank tabs on a black background produced for duty uniforms and military use. Suitable for tactical, duty, and military surplus contexts where authentic insignia are required.

Main features

Clean, military-grade design with clear Primo Graduato rank detailing for use on the service jacket.

- Material: plastic rank tab on a black background with a heat-sealed sheath.
- Border: framed by a 3 mm black edge for a neat, professional finish.
- Rank detail: Primo Graduato shown in red as two downward-pointing chevrons separated by a thin 3 mm gold line and joined by a small arch at each end.
- Easy to recognize on the service jacket—meant for official duty wear and identification.
- Limited availability due to restricted distribution to authorized military personnel.

How to use / When it’s useful

Quick answer: mount the tubolari on the designated area of the Esercito service jacket to display Primo Graduato rank during duty or formal service occasions. In most cases, they replace or sit above existing fabric tabs according to uniform regulations.

These tubolari are useful whenever official rank display is required—daily duty, inspections, and formal assignments. They are produced for adherence to service appearance and are not intended as civilian or collector items.
