- **Material:** Wooden grips; other components as provided with the model.
- **Use:** For blank ammunition only—suitable for film, training, ceremonies and display.
- **Safety:** Not compatible with live ammunition. Observe local laws and firearm safety practices.

Product description:

Product overview

The Bruni Pistola a Salve 315 Auto Guanciole Legno is a blank-firing pistol designed for training, film use, historical reenactment and collectors who want a realistic, safe simulation tool. Definition: a blank-firing (salve) pistol that uses 8 mm blank cartridges to simulate shots without live ammunition.

This model combines a classic look with practical features: wooden grips for a firm hold, a safety lever that blocks the hammer and trigger, compact dimensions, and a supplied carrying case. It appeals to tactical trainers, police simulation users and military surplus collectors seeking authentic appearance and handling.

Main features

Key specifications and benefits at a glance, suitable for training, display, and controlled simulations.

- **Caliber:** 8 mm blank cartridges for realistic sound and recoil simulation.
- **Magazine capacity:** 7 rounds.
- **Wooden grips (guanciole):** classic finish and ergonomic hold.
- **Safety lever:** locks the hammer and trigger for safer handling.
- **Compact size:** 11 cm length x 8 cm height—easy to handle and transport.
- **Includes a carrying case:** secure storage and practical transport.

How to use / When it’s useful

Quick answer: Use this blank-firing pistol for training drills, stage and film effects, or as part of a collection where realistic appearance and safe simulation are required. It is not for live ammunition.

In most cases, users deploy this model for scenario training, demonstration, and reenactment where a realistic, compact blank pistol is needed. Always follow local laws and range rules when using blanks and store the pistol unloaded in its case when not in use.

Care and notes

Basic care keeps the pistol reliable and preserves the wooden grips and finish.

- Use only 8 mm blank cartridges designated for blank-firing pistols.
- Store unloaded, in the supplied case, away from children and unauthorized users.
- Keep the action clean and dry; wipe wooden grips with a soft cloth and avoid harsh solvents.
- Do not modify the safety mechanism; it is intended to block both hammer and trigger.

FAQ

Q: What caliber is the Pistola a Salve 315 Auto Guanciole Legno?

A: The pistol is chambered for 8 mm blank cartridges. Use blanks only—not live ammunition.

Q: How many rounds does the magazine hold?

A: The magazine capacity is 7 rounds, providing moderate autonomy between reloads for training or demonstration.

Q: Does the pistol have a safety?

A: Yes. The safety lever blocks both the hammer and the trigger to help prevent accidental discharge when engaged.

Q: Are the grips made of real wood?

A: Yes. The guanciole (grips) are wooden, offering a traditional look and an ergonomic grip.

Q: Is a case included with the pistol?

A: Yes. The pistol is supplied with a carrying case for secure storage and transport.

Q: What are the pistol's dimensions?

A: Dimensions are 11 cm in length and 8 cm in height, making it compact and easy to handle.

Tip: Choose the correct variant and verify local regulations before purchase. Consider browsing related tactical, police, and military surplus items to complete training kits or display collections.
