Product short description:

Blue work coverall for professionals who need durable, comfortable workwear. Made from robust, breathable fabric to protect during daily tasks while allowing freedom of movement.

- **Material:** Robust, breathable fabric for durability and comfort.
- **Protection:** Guards against wear and workplace dirt without limiting movement.
- **Features:** Reinforced seams and practical pockets for tools and essentials.
- **Fit & Closure:** Ergonomic cut with front zipper for easy on/off and a secure fit.
- **Color & Use:** Classic blue, suitable for workshops, maintenance and industrial work.

Product description:

Product overview

The Tuta Blu da Lavoro is a durable work coverall designed for professionals who need reliable, comfortable workwear—ideal for workshop, agricultural, and general industrial use. Definition: a 100% Massaua cotton coverall built to withstand heavy use while offering practical storage and a comfortable fit.

Built for mechanics, blacksmiths, laborers and maintenance crews, this coverall also works well for duty and tactical-related tasks where sturdy cotton workwear is preferred. It balances toughness, practicality and easy care for everyday use.

Main features

Key practical details for on-the-job use:

- **Material:** 100% Massaua cotton, 270 g/m², sanforized (pre-shrunk) for stable sizing.
- **Storage:** 2 chest pockets with flap and button, 2 side waist pockets and 1 rear right pocket for tools and small items.
- **Easy wear:** Front zipper closure for quick on/off.
- **Comfort:** Elastic at the back waist and a shirt-style collar for a practical fit.
- **Care:** Machine wash at max 40 °C for routine maintenance.

How to use / When it’s useful

Use this coverall for workshop tasks, mechanical repairs, agricultural work, and manual trades where durable cotton workwear is needed. It provides full-body protection against dirt and light wear while keeping tools at hand.

Quick answer: Yes — it’s suitable for mechanics, fabbri (blacksmiths), operai (workers) and many duty or tactical support roles that accept cotton coveralls. In most cases, choose the coverall 1–2 sizes larger than your usual trouser size to ensure comfort and freedom of movement at the crotch.

Care and notes

Simple care keeps the coverall in good condition and maintains fit.

- Wash at a maximum temperature of 40 °C.
- Fabric is sanforized — it should not shrink if washed according to instructions.
- For a comfortable fit, order 1–2 sizes up from your normal pant size (for example, if you wear size 48 trousers, choose size 50).

FAQ

Q: What material is the Tuta Blu da Lavoro made of?

A: It is made from 100% Massaua cotton, weight 270 g/m², and the fabric is sanforized to reduce shrinkage when washed properly.

Q: Which sizes are available?

A: Available sizes are 50 and 52. Size details are listed below to help you pick the best fit.

Q: How should I choose the correct size?

A: Choose 1–2 sizes larger than your usual trouser size to ensure comfort, especially around the crotch and waist. This prevents tightness during movement.

Q: Will the coverall shrink after washing?

A: The fabric is sanforized, so it should not shrink if washed at or below the recommended maximum of 40 °C and cared for properly.

Q: How many pockets does the coverall have?

A: It has 2 chest pockets with flaps and buttons, 2 waist pockets and 1 rear pocket on the right side for tools and small items.

Q: Is this suitable for workshop or mechanical work?

A: Yes. The coverall is designed for workshop, agricultural and industrial tasks and is well suited to mechanics, metalworkers and general labor jobs.

Tip: Check the size guide before ordering—size 50 fits a chest of 98–102 cm and waist 86–90 cm; size 52 fits chest 102–106 cm and waist 90–94 cm. Choose the larger option for a roomier fit and browse related workwear items to complete your set.
