## Product short description:

Gallone Oro 12 mm is a classic gold braid decorative trim for tailoring, costumes, and craft projects, ideal for hobbyists, stage designers, and uniform detailing. It provides a refined, bright finish that enhances small details while remaining suitable for regular use.

- **Material:** Made from quality materials for reliable wear.
- **Width:** 12 mm — suited to delicate trims and narrow accents.
- **Use:** Ideal for garments, costumes, uniforms, and decorative projects.
- **Finish:** Shiny gold look that adds a refined, distinctive touch.

## Product description:

## Product overview

The Gallone Oro 12 mm is a narrow gold-metal trim designed for professionals and hobbyists working on uniforms, ceremonial wear, theatre costumes, and decorative projects. It is intended for anyone who needs a refined sleeve rank trim or a decorative gold braid for garments and crafts.

Definition: a 12 mm wide gold-metal gallone (trim) sold by the meter for sewing and decorative use. The product is sold per meter and combines a metal gold finish with a slim profile suited to rank construction and decorative edging.

## Main features

Key benefits at a glance:

- **High-quality metal construction:** metal gold finish designed for durability and long-term use.
- **Exact width:** 12 mm wide, suitable for sleeve ranks and narrow trim applications.
- **Elegant appearance:** gold finish provides a polished, formal look for uniforms, ceremonial and theatre use.
- **Versatile:** usable on uniforms, military surplus projects, police dress items, costumes, and decorative crafts.
- **Easy to work with:** designed for straightforward application by professionals and beginners.
- **Sold by the meter:** buy only the length you need for each project.

## How to use / When it's useful

Use the Gallone Oro 12 mm to edge sleeves, create rank stripes, finish costume trims, or add decorative accents to event decor. It is commonly used on military and ceremonial uniforms, theatre costumes, and custom garments where a narrow gold trim is required.

Quick answer: yes — this trim is suitable for building sleeve ranks and decorative edging. In most cases, it is applied with basic sewing techniques or standard attachment methods and works well for both repair and new construction projects.

## Care and notes

Basic care and ordering notes to keep the finish in good condition and ensure a correct fit for your project.

- Sold by the meter — order the exact length needed for your project.
- Width: 12 mm — confirm this size fits your rank or trim requirements before cutting.
- Store in a dry place and avoid sharp bends to preserve the metal finish.
- Limited availability — stock can be high in demand; consider ordering in advance for larger projects.

## FAQ

**Q:** What is the width of the Gallone Oro 12 mm?

**A:** The trim is 12 mm wide. This slim profile is intended for sleeve ranks and narrow decorative edges.

**Q:** How is the price calculated?

**A:** The price is for a single meter. You can order multiple meters if your project requires longer lengths.

**Q:** What projects is this gallone suitable for?

**A:** It is ideal for constructing sleeve ranks, trimming uniforms, theatrical costumes, and decorative accents for events or crafts.

**Q:** Is the gallone easy to apply?

**A:** Yes. It is designed for easy application by both professionals and hobbyists using standard sewing or attachment methods.

**Q:** Is the gold finish durable?

**A:** The product has a metal gold finish intended to provide long-lasting wear. Proper care—such as storing dry and avoiding heavy abrasion—helps maintain the appearance.

**Q:** Is stock limited?

**A:** Availability can be limited due to demand. If you need a specific length for a large project, consider ordering ahead to ensure supply.

**Tip:** Choose the correct length and confirm the 12 mm width before purchase; browse related trims and accessories to match color and finish for a consistent result.
