Product short description:

Ammiraglio Marina epaulette buttons add an elegant, authoritative touch to uniforms and jackets. Designed for uniform wearers, reenactors and anyone seeking a refined naval detail, these gold-tone buttons provide a professional, timeless look for ceremonies and formal occasions.

- **Material:** High-quality materials with a gold-tone finish for a refined look.
- **Design:** Classic naval inspiration for a professional, timeless appearance.
- **Use:** Ideal for uniforms, ceremonial dress or to add a distinguished detail to jackets; easy to attach to epaulettes.

Product description:

Product overview

Admiral Navy Buttons for shoulder straps are decorative and functional uniform buttons designed for professionals who need a neat, military-style finish on rigged shoulder boards. Definition: these are 13 mm diameter buttons supplied with fixing accessories for attaching to shoulder straps.

They suit duty, police, and military surplus uniforms or tactical gear where a traditional naval look is required. Made for visible use on rigid shoulder straps, they add a refined, professional appearance while remaining practical and durable.

Main features

Key attributes at a glance:

- **Size:** 13 mm diameter for balanced visibility and discreet appearance.
- **Fixing kit included:** Each button comes with the accessories needed for attachment.
- **Designed for rigid straps:** Ideal for structured shoulder boards and epaulettes.
- **Durable construction:** Made from high-quality materials to maintain look and function over time.
- **Professional aesthetic:** Classic naval design suitable for duty, police, and military surplus uniforms.

How to use / When it’s useful

Use these buttons to replace worn fittings or to upgrade the look of a uniform shoulder strap. They are intended for rigid shoulder boards and similar structured accessories where a secure fastening is required.

Quick answer: The buttons attach using the included fixing accessories and are ready for standard shoulder strap installations. In most cases, installation is straightforward; if you are unsure about fitting, a uniform tailor or repair service can help ensure a secure fit.

Care and notes

Simple care keeps the buttons looking their best:

- Wipe clean with a soft, dry cloth; avoid abrasive cleaners.
- Store dry to prevent corrosion or tarnish over time.
- Designed primarily for rigid shoulder straps; results may vary on soft or heavily padded materials.
- Availability may be limited due to demand; check the product page for current stock.

FAQ

Q: What is the diameter of these buttons?

A: The buttons measure 13 mm in diameter, a size that balances visibility and a discreet, professional look.

Q: Are the fixing accessories included?

A: Yes, each button is supplied complete with the necessary fixing accessories for attachment to shoulder straps.

Q: Are these buttons suitable for rigid shoulder straps?

A: Yes. They are specifically designed for rigid or structured shoulder boards and epaulettes.

Q: What material are the buttons made from?

A: The buttons are made from high-quality materials chosen for durability and long-term use; exact material details are provided on the product listing where available.

Q: Can I use these buttons on other parts of a uniform?

A: They are primarily intended for shoulder straps but can be used on other uniform parts depending on fit and attachment requirements.

Q: How do I install the buttons?

A: Installation uses the included fixing accessories and follows standard button-attachment methods. If you are not comfortable installing them yourself, a uniform tailor or repair service can assist.

Tip: Choose the correct size and check the product listing for quantity and current stock before ordering. Browse related tactical and military surplus items to match fittings and complete your uniform set.
