How to use / When it’s useful

Quick answer: Wear on the uniform where service ribbons are displayed or use the loose ribbon for medal mounting and restoration work. Select clamp or screw fittings based on your ribbon bar or uniform requirements.

In most cases, collectors and military surplus retailers buy the regulation flat form, while restorers and display builders may prefer the Elite domed version or loose ribbon to cut and sew. Choose the attachment type that matches your ribbon bar hardware.

Care and notes

Basic care will keep the ribbon looking correct for display and wear.

- Avoid harsh cleaning chemicals; spot clean with mild soap and water if needed.
- Store flat or on a ribbon bar to prevent creasing, especially for the Elite domed variant.
- Minimum order for loose medal ribbon is 50 cm—select the appropriate option in the dropdown when ordering.
- Check your selected rear attachment (clamp or screw) before finalizing the order to ensure compatibility with your ribbon bar.
