How to use / When it’s useful

Quick answer: Use this nastrino on dress uniforms, parade mounts, display cases, or in a collector’s set to represent the Cavaliere di Gran Croce OMRI up to 2001. In most cases, the 37 mm size is chosen for formal display and the 20 mm for smaller or multi-ribbon bars.

Choose the flat regulatory finish for authentic uniform wear or the slightly domed Elite finish for a more pronounced appearance in museum displays or private collections. Select the rear holder type (clamps or screws) based on how you plan to attach the ribbon to your uniform or ribbon bar.

Care and notes

Keep the ribbon in good condition with simple, careful handling and the correct mounting choice.

- Store in a dry, cool place to avoid fabric or backing deterioration.
- Handle by the edges to keep the surface clean and avoid bending the ribbon.
- Select the correct size and rear holder (clamps or screws) before checkout—availability can be limited.
