How to use / When it’s useful

Quick answer: choose the size and attachment type that match your ribbon bar or uniform mounting system, then attach with the selected clamp or screw. The ribbon is used for display, uniform wear, or collection presentation.

In most cases, the 37 mm width is used for full-size ribbon bars and the 20 mm for narrower displays; the Elite (slightly domed) finish is a common choice when a more polished appearance is wanted. Fit to a single ribbon holder or to a multi-ribbon bar as needed.

Care and notes

Small care measures will keep the ribbon looking correct for display or wear.

- Store in a dry place away from direct sunlight to avoid fading.
- Clean gently with a soft, dry cloth; avoid harsh chemicals or abrasive cleaning.
- Choose the correct size and attachment option for your ribbon bar before ordering.
- Limited availability: demand is often high, so consider ordering promptly if you need a specific variant.
