Product short description:

Mechanix Impact gloves provide reliable protection and comfort for mechanics, industrial workers and DIY enthusiasts working in demanding conditions.

- **Material:** TPR (thermoplastic rubber) pads on knuckles and fingers to absorb impacts and resist abrasion.
- **Palm:** Synthetic leather palm offers a secure grip and durable performance.
- **Fit:** Ergonomic design for a close, comfortable fit with an adjustable Velcro wrist closure for easy on/off.
- **Use:** Ideal for mechanics, tradespeople and home DIY projects where protection and dexterity are needed.

Product description:

Product overview

The Mechanix Impact gloves are full-finger protective gloves designed for professionals and enthusiasts who need reliable hand protection with good dexterity. They suit law enforcement,

military, security personnel and outdoor users who handle tools, weapons or equipment.

Definition: Mechanix Impact gloves combine a thermoplastic rubber back for impact protection with an anti-slip palm for precise control. These tactical/duty gloves balance protection, comfort and grip for everyday operational use.

Main features

Key construction and performance details that matter for duty, police and military use.

- **Thermoplastic rubber back:** durable, flexible protection for the back of the hand against impacts and abrasions.
- **Anti-slip palm coating:** enhanced grip for secure handling of tools, weapons and equipment.
- **Full-finger design:** complete fingertip coverage for protection without losing sensitivity.
- **Professional colorway:** green and black for a discreet, operational look and improved visibility where needed.
- **Comfort and mobility:** designed to preserve finger movement and manual control during extended use.

How to use / When it’s useful

Quick answer: Use these gloves when you need hand protection from impact or abrasion while maintaining a secure grip and fine motor control. Ideal for patrol, range work, maintenance, fieldcraft and general tactical tasks.

In most cases, these gloves work well for routine operational tasks and outdoor activities where dexterity matters more than heavy insulation. They are not marketed as extreme cold-weather gloves; consider thermal liners for subzero conditions.

Care and notes

Simple care keeps the gloves performing and extends their service life. Follow the manufacturer’s instructions for cleaning and storage.

- Washable: clean according to manufacturer directions to preserve materials and fit.
- Not a thermal glove: add liners for very cold environments.
- Check fit: a proper size ensures protection and control—refer to the site size guide before ordering.
- Limited stock note: availability can vary, so confirm current stock when ordering.

FAQ

Q: What sizes are available for Mechanix Impact gloves?

A: Sizes are offered across a standard range to ensure a close fit. Check the store’s size guide to match your hand measurements before purchase.

Q: Can I wash these gloves?

A: Yes, the gloves can be washed following the manufacturer’s care instructions to maintain material performance and fit.

Q: Are these gloves suitable for use in very cold weather?

A: They provide protection from impact and abrasion but are not intended as heavy thermal gloves. For very cold conditions, use insulated liners or dedicated cold-weather gloves.

Q: Can I use these gloves for outdoor activities like trekking?

A: Yes. Their grip and durability make them useful for many outdoor activities, including trekking, where protection and tactile control are needed.

Q: Who are these gloves best suited for?

A: They are well suited to law enforcement, military, security professionals and outdoor enthusiasts who need tactical, duty-grade hand protection.

Q: What is the returns policy for these gloves?

A: The seller offers a 30-day return window if you are not satisfied. Verify return conditions and packaging requirements at the time of purchase.

Tip: Choose the correct size variant for a snug fit and browse related tactical and duty gloves to find the right combination of protection and insulation for your tasks.
