Product short description:

A six-pointed gold-tone star with a red border, made to add an elegant finishing touch to gift ribbons. Ideal for crafters, gift wrappers and retailers seeking a refined, festive accent.

- **Appearance:** Sparkling gold finish with a vibrant red edge for a sophisticated look.
- **Use:** Designed for decorating ribbons and bows on gift packages and presentation wrapping.
- **Compatibility:** Pairs beautifully with ribbons of any color.
- **Occasions:** Suitable for birthdays, holidays, anniversaries and formal events.

Product description:

Product overview

The Stellina Oro Bordo Rosso 6 Punte for ribbons is a small decorative metal star intended for use on award ribbons, uniform decorations, display pieces, and military or ceremonial gear. It is

designed for service members, collectors, event organizers, and anyone who needs a polished, official-looking ribbon accent.

Definition: A six-point gold-colored metal star with a red border and a foldable wing backing, 18 mm in diameter. Made from quality metal with a durable finish, it adds a clear visual accent to ribbons used in tactical, military surplus, police, and duty contexts.

Main features

Key details at a glance.

- **High-quality metal:** Durable construction for long-lasting use.
- **Gold color with red border:** Sophisticated two-tone finish for a distinctive look.
- **Six-point design:** Symmetrical shape for consistent visual impact.
- **18 mm diameter:** Noticeable on ribbons without being oversized.
- **Foldable wing backing:** Easy and secure attachment to most ribbon types.
- **Versatile use:** Suitable for ceremonies, displays, uniforms, and collectors.

How to use / When it’s useful

Attach the star by placing it on the ribbon where you want the accent and fold the backing wings down to secure it. It works well on single or layered ribbons and can be used on dress uniforms, medal displays, or presentation ribbons.

Quick answer: Use the foldable wing backing to clamp the star onto the ribbon; no special tools are required. In most cases, one star per ribbon is enough to add a formal touch, but you can apply multiple stars for rank or decorative patterns.

Care and notes

Basic care will keep the finish attractive and the backing secure over time.

- Avoid harsh chemicals and abrasive cleaners to preserve the finish.
- Check the folded wings periodically to ensure the star stays firmly attached.
- Store in a dry place to prevent corrosion or discoloration.

FAQ

Q: What material is the star made of?

A: The star is made from a quality metal designed for durability. The finish is applied for visual appeal and normal wear resistance.

Q: What are the exact dimensions?

A: The star measures 18 mm in diameter, sized to be visible on standard ribbons without overwhelming the ribbon design.

Q: How do I attach the star to a ribbon?

A: Place the star on the ribbon and fold the metal wings on the back over the ribbon to lock it in place. No glue or special tools are required.

Q: Is this suitable for official uniforms or police/military display?

A: Yes. The design and finish make it appropriate for ceremonial use, displays, and uniform ribbon accents in tactical, military surplus, police, and duty settings. Always follow organizational uniform regulations.

Q: Will the gold and red color fade over time?

A: The finish is made to be durable and should retain its color under normal use. Avoid exposure to harsh cleaners or conditions that could accelerate wear.

Q: Is this item available in large quantities?

A: Stock can be limited depending on demand. If you need multiple pieces, check current availability and consider ordering early to ensure you receive the quantity required.

Tip: Choose the right quantity for your ribbons and consider pairing this star with other ribbon accessories for a coordinated look; browse related ribbon attachments and display items to complete your set.
