Product short description:

The Security Level IIIA Bulletproof Vest offers discreet ballistic protection for security professionals and for anyone seeking extra personal safety. It balances lightweight comfort with resistance to wear, allowing freedom of movement for daily use.

- **Material:** Constructed from high-quality fabrics designed for durability and wear resistance.
- **Protection:** Provides reliable defence against common ballistic threats at Level IIIA protection.
- **Fit:** Low-profile design that can be worn comfortably under everyday clothing.
- **Use:** Ideal for security personnel, plainclothes officers and civilians needing added protection.

Product description:

Product overview

The **Giubbino Anti Proiettile Security Level IIIA** is a bulletproof vest designed for private security, licensed guards and other security personnel who need reliable protection and fast

donning. Definition: a Level IIIA vest uses aramid ballistic panels designed to reduce the risk from medium-caliber handgun rounds.

This vest combines a low-profile, tactical design with four adjustable Velcro closures for quick fitting. It is aimed at duty and tactical use where mobility, airflow and lightweight protection matter.

Main features

Key features designed for comfort, protection and easy use.

- Level IIIA ballistic protection in aramid panels (ballistic performance as stated by the product).
- Four adjustable Velcro closure points on shoulders and sides for fast dressing and precise fit.
- Durable, washable nylon outer cover for easy maintenance.
- Honeycomb mesh inner lining to promote airflow and wearer comfort.
- Approximately 2.5 kg per piece—lightweight for extended duty shifts.
- Available sizes: Large and X-Large (chest 109–122 cm, waist 101–121 cm).

How to use / When it’s useful

Quick to put on and adjust: the four Velcro points allow rapid donning and a close, secure fit for patrols, static posts and mobile security tasks. The breathable lining helps keep the wearer cooler during long shifts.

Quick answer: this vest is suitable for private security and duty use where discreet, reliable ballistic protection is required. In most cases, choose a size that allows a snug fit over uniforms or outer layers without restricting movement.

Care and notes

Simple care and practical notes to preserve function and fit.

- Outer nylon cover is washable; follow any specific cleaning guidance provided with the product.
- Check fit regularly—correct fit is important for the intended level of protection.
- Available only in Large and X-Large; stock is limited, so verify availability before ordering.
- Do not alter ballistic panels or stitching; alterations can reduce protective performance.

FAQ

Q: What level of protection does the vest provide?

A: The vest is described as Level IIIA with aramid ballistic panels. It is intended to reduce the risk

from medium-caliber handgun rounds in accordance with the Level IIIA designation.

Q: Which sizes are available?

A: The vest is available in Large and X-Large. Size guidance: chest 109–122 cm and waist 101–121 cm for the two sizes.

Q: How much does the vest weigh?

A: Weight is approximately 2.5 kg per piece, making it a lightweight option for extended duty and tactical use.

Q: How is the vest adjusted for fit?

A: Four Velcro closure points—two on the shoulders and two at the sides—allow fast donning and precise adjustment to different body shapes.

Q: Is the vest easy to maintain?

A: The outer cover is made of durable, washable nylon and the inner honeycomb mesh improves airflow. Follow any care instructions supplied with the vest to protect ballistic panels.

Q: Is the vest in stock?

A: This model is produced in limited quantities and demand can be high. Check current availability before completing your purchase.

Tip: Choose the size that fits over your duty uniform without restricting movement and consider related tactical and duty gear to complete your setup. If unsure, consult sizing details or contact the seller for help before ordering.
