How to use / When it’s useful

Quick answer: use the nastrino for display on ribbon bars, in presentation cases, or mounted on metal porta nastrini for uniform-style presentation. It is intended for collectors, reenactors, and anyone arranging military memorabilia.

In most cases, attach the ribbon to a porta nastrino using the chosen rear fastener (clamp or screw). Choose the flat regulation version for historical accuracy or the Elite variant for a slightly polished look when grouping with other military ribbons.

Care and notes

Simple care keeps the nastrino suitable for long-term display; follow mounting guidelines and select the attachment method that fits your display or uniform needs.
