How to use / When it’s useful

Quick answer: attach the Fascetta Mediterraneo to a 37 mm ribbon used with the International Security Cross for display or ceremonial use. It fits standard 37 mm ribbons and is intended as a commemorative accessory rather than protective gear.

In most cases, people use it for uniform displays, memorabilia collections, or as a respectful reminder of NATO and national maritime missions. It also works well for tactical or police/duty memorabilia displays where accurate mission identification is important.

Care and notes

Simple care keeps the fascetta looking its best; store and handle it as you would other metal collectibles.

- Keep dry and avoid prolonged exposure to saltwater or harsh chemicals to prevent surface wear.
- Clean gently with a soft cloth; avoid abrasive cleaners that could damage the finish or engraving.
- Confirm your ribbon is 37 mm wide before attaching the tag.
- Note: this is a commemorative accessory, not a safety or protective device.
