Product short description:

A 24-slot ribbon holder designed for artisans, hobbyists and DIY enthusiasts who need tidy, accessible storage for ribbons. It keeps up to 24 ribbons organized and untangled while fitting neatly in a workshop or at home.

- **Material:** Made from high-quality materials for a sturdy, long-lasting holder.
- **Capacity:** Holds up to 24 ribbons for easy selection and storage.
- **Use:** Ideal for crafters, sewing, gift wrapping and general hobby use.
- **Design:** Compact footprint that fits workbenches, shelves or craft rooms and adds a neat, elegant touch.
- **Benefit:** Prevents tangling and keeps ribbons orderly for efficient workflow.

Product description:

Product overview

The **Porta Nastrini a 24 Posti** is a metal ribbon holder designed to store and display up to 24 ribbon bars. It is ideal for hobbyists, craftspeople, uniformed staff and collectors who need a neat,

durable solution for organizing ribbons.

Definition: a compact metal rack that houses twenty-four ribbon bars in an orderly, accessible layout. Suitable for domestic use, professional displays, tactical, military surplus and police duty gear storage.

Main features

Simple, robust construction and a choice of rear attachments make this ribbon rack practical for many mounting needs.

- **High-quality metal:** Durable material offers long service life and solid support for ribbons.
- **24-slot capacity:** Holds up to twenty-four ribbon bars in a compact arrangement.
- **Rear attachment options:** Choose between clamp (clip) or screw mounting to match your setup.
- **Designed for 37 millimetre ribbons:** Fits the 37 mm format; can be adapted to similar sizes with minor adjustments.
- **Rust-treated finish:** Metal is treated to resist rust and extend the product life.
- **Easy to install:** Straightforward mounting and use make it suitable for beginners and professionals.

How to use / When it’s useful

Use the **Porta Nastrini a 24 Posti** to keep ribbons visible and organized on a display board, in a workshop, or in storage. Quick answer: choose the clip attachment for temporary or non-drilled mounting, or the screw version for a permanent installation.

In most cases, this holder works well for uniform preparation, collection displays, and retail presentation of ribbon bars. If you need extra capacity, purchase multiple units and place them side by side to expand storage.

Care and notes

Basic care keeps the holder functional and attractive for years. Follow these simple notes when installing and maintaining the product:

- Keep the metal clean and dry; wipe with a soft cloth to remove dust and moisture.
- Avoid abrasive cleaners or strong chemicals that could damage the rust-resistant treatment.
- Select the correct rear attachment (clip or screws) when ordering to match your mounting preference.
- Designed for 37 mm ribbons—larger ribbons may require slight adjustments or other mounting solutions.

FAQ

Q: What are the exact dimensions of the Porta Nastrini a 24 Posti?

A: Exact measurements are listed on the product technical sheet. The holder is designed to be compact and suitable for standard display spaces.

Q: Can I mount the holder without using screws?

A: Yes. Choose the rear clamp (clip) attachment option to mount without drilling or screws.

Q: Will it fit ribbon bars of any size?

A: It is designed for 37 millimetre ribbon bars. Minor adjustments may allow use with slightly different sizes, but very large ribbons may not fit.

Q: Is the metal resistant to rust?

A: The metal is treated to resist rust and improve longevity. Regular cleaning and dry storage will help maintain the finish.

Q: Can I connect multiple units together?

A: Yes. You can buy more than one unit and position them side by side to increase overall capacity.

Q: How difficult is installation?

A: Installation is straightforward and suitable for beginners. Choose the mounting type that fits your surface and skill level.

Tip: When ordering, select the preferred rear attachment (clip or screws) and confirm the 37 mm ribbon format for best fit. Consider browsing matching display and storage items to complete your ribbon organization setup.
