How to use / When it’s useful

Quick answer: use this nastrino for display on uniforms, presentation mounts, collections, or museum exhibits where a historically accurate ribbon bar is required. It is provided in the standard 37 mm size for consistent presentation.

In most cases, choose the flat 37 mm for official regulation display or the Elite variant for a slightly more prominent appearance. Select the appropriate portanastrini attachment—clamps for fabric-mounted displays, screws for more permanent fittings—to ensure a secure fit.

Care and notes

Simple care preserves the ribbon’s appearance and fit; choose the correct mounting option before purchase.

- Keep the ribbon dry and avoid strong solvents or abrasive cleaners.
- Handle by the edges to limit wear and preserve color and fabric.
- Confirm the 37 mm size and preferred Elite/flat variant before ordering.
- Request multi-ribbon assembly details if you need several ribbons mounted on one metal base.
