Product short description:

The Distintivo Rettangolare Italia Infrarossi IR is a rectangular Italy badge with an infrared (IR) feature, designed for users who want a subtle, durable display of national pride on backpacks, jackets or hats used during outdoor activities or tactical situations.

- **Material:** High-quality, durable construction built to withstand regular use.
- **Visibility:** Infrared (IR) element enhances visibility in low-light or IR-illuminated conditions.
- **Use:** Suitable for outdoor pursuits, field work and tactical scenarios.
- **Attachment:** Easy to apply to backpacks, jackets or hats for quick customization.

Product description:

Product overview

The Rectangular Italy Infrared IR Badge is a rubber, Velcro-backed patch designed for tactical, military, police duty and outdoor use. It is meant for users who need a low-profile identification or national emblem on clothing, backpacks or gear.

Definition: the Distintivo Rettangolare Italia Infrarossi IR is a printed rubber patch (8 x 5 cm) with a black background and an Italy shield marked in IR, fitted with rear Velcro for quick attachment.

Main features

Compact, durable and easy to fit on any Velcro-ready surface.

- **High-quality material:** molded/printed rubber for durability.
- **IR-marked Italy shield:** black background with Italy scudetto in infrared (IR) style.
- **Velcro rear:** quick attach/removal on textile Velcro panels.
- **Compact size:** 8 x 5 cm for visible but unobtrusive placement.
- **Weather resistant:** water-resistant rubber suitable for outdoor and tactical use.
- **Versatile:** fits clothing, jackets, packs, hats and other textile gear.

How to use / When it’s useful

Quick answer: Stick it to any garment or equipment with a Velcro loop panel — ideal for ID, unit marking or showing national affiliation during training, patrols or outdoor activities.

In most cases, attach the patch to the loop side of Velcro on uniforms, tactical vests, backpacks or caps. It works well for military surplus setups, tactical kits and police duty equipment where a low-profile Italy emblem is needed.

Care and notes

Simple handling keeps the patch functional and clean.

- Water-resistant rubber: suitable for rain and general outdoor use; avoid prolonged immersion.
- Attach only to loop-side Velcro on textiles for secure fit.
- Currently available only with black background and IR Italy shield.
- Velcro allows easy removal before laundering or heavy cleaning of the garment.

FAQ

Q: Is the badge waterproof?

A: The patch is made of printed rubber and is water-resistant, suitable for rain and typical outdoor use. Avoid prolonged submersion to preserve the materials.

Q: How do I attach the patch?

A: It has Velcro on the rear; press it onto any compatible loop-panel on clothing or gear for an immediate, secure fit.

Q: What are the patch dimensions?

A: The badge measures 8 x 5 cm, a compact size that remains visible without being bulky.

Q: Can I use it on military or police uniforms?

A: Yes, it is suited for tactical, military and police duty gear where Velcro loop panels are available. Always follow your unit or department uniform rules.

Q: Are there other color options?

A: At present this model is offered only with a black background and the Italy shield in IR marking.

Q: What does "Infrared IR" mean for this patch?

A: "IR" refers to the patch style or marking intended to be compatible with infrared-aware gear or aesthetics; check unit or mission requirements before use in IR-sensitive operations.

Tip: Choose the correct size and check your garment’s Velcro loop panels before ordering. Browse related tactical patches and military surplus items to match your kit or complete your setup.
