Product overview

The NATO Africa ribbon is a service ribbon awarded to NATO military and service personnel who participated in anti-piracy operations off the coast of Africa, including Op Allied Protector, Op Allied Provider and Op Ocean Shield. It is suitable for veterans, active service members, uniform displays, and collectors of military surplus or tactical items.

Definition: A service ribbon is a small colored ribbon mounted on a bar or medal rack to show

participation in a specific operation or campaign.

Main features

Compact and accurately reproduced to match the issued design, available in sizes and mounting options for display or uniform presentation.

- **Distinctive design:** light blue field with two vertical white pales, each containing a narrow silver stripe, and a central bronze cartouche with the raised inscription **AFRICA**.
- **Available formats:** standard flat regulatory ribbon and slightly curved “Elite” variant.
- **Mounting options:** single-ribbon mount with rear clamps/clips or screws; compatible with multi-ribbon mounts (two or more positions) for combined displays.
- **Sizes:** offered in 37 mm and 20 mm widths; sold as loose ribbons for full-size medals or miniature gala ribbons via the product options.
- **Uses:** suitable for uniform ribbon bars, collectors’ displays, and military surplus or tactical retail stock.

How to use / When it’s useful

Quick answer: The ribbon is intended for personnel awarded the NATO Africa service recognition and for collectors or uniform displays. Use the correct size (37 mm for full-size, 20 mm for miniatures) and the mounting style that fits your ribbon bar.

In most cases, mount the ribbon on a single-position holder or on a multi-ribbon bar with other service ribbons. For retail or display, the Elite curved variant offers a slightly raised appearance while the flat format matches standard regulation bars.

Care and notes

Keep the ribbon clean and store mounted ribbons flat to preserve shape. Check your unit or organization guidelines before wearing on active duty.

- Select the correct width (37 mm or 20 mm) for your intended use.
- Choose flat or Elite style and the preferred attachment (clips or screws) from the product options.
- Multi-position ribbon mounts are available for displaying multiple ribbons on a single metal base.
- Availability may be limited; verify option selections before completing your order.

FAQ

Q: Who is eligible to receive the NATO Africa ribbon?

A: The ribbon is conferred to NATO military and service personnel who took part in the

anti-piracy operations listed (Op Allied Protector, Op Allied Provider, Op Ocean Shield).

Q: What sizes are available?

A: The ribbon is available in two widths: 37 mm for full-size medals and 20 mm for miniatures.

Q: Which mounting options can I choose?

A: You can select a single-position mount with rear clamps/clips or screws. Multi-position mounts for two or more ribbons are also available for combined displays.

Q: What is the difference between flat and Elite variants?

A: The flat variant matches standard regulatory ribbons; the Elite variant is slightly curved for a raised appearance on ribbon bars and display mounts.

Q: Can civilians or collectors purchase this ribbon?

A: Yes. The ribbon is offered for display, collection, and retail purposes. Wearing it on official uniform should follow your organization's regulations.

Q: Is stock limited and how do I select options?

A: Some variants may have limited availability. Choose size and attachment options from the product dropdown before adding to cart to confirm your selection.

Tip: Choose the correct width and mounting type for your intended use (37 mm for full-size, 20 mm for miniatures). Browse related ribbons and ribbon mounts to create a complete display or to match duty and tactical uniform requirements.
